YOUR BENEFITS

61/76 KEYS 820 VOICES 290 STYLES 30 SONGS AUX IN USB STORAGE SONG PLAY/REC PC CONNECTIVITY SMART DEVICE CONNECTIVITY

GROOVE CREATOR & QUICK SAMPLING

With Groove Creator, buttons and knobs are all you need to create contemporary electronic music and sound like a pro. Capture sound from outside of your instrument using the AUX input, microphone input or even by importing files from a USB storage device, and then play those sounds directly from your keyboard. The possibilities are endless!

PREMIUM SOUND QUALITY

The Super Articulation Lite function lets you realistically simulate the distinct ways each instrument is played — for example, the scratch sound of a distorted electric guitar or the harmonics of a nylon-string guitar. In addition, the PSR-EW425 features premium organ sound created with samples from high-end Yamaha YC Series.

LIVE CONTROL KNOBS

The two Live Control Knobs make it easy to manipulate and interact with the sound you produce as you play. The ability to set the filter cutoff frequency to change the brightness of the sound and control effects in real time helps bring your performances to life.

MOTION EFFECT

The Motion Effect function lets you instantly add effects while you play that can, morph the sound with a filter, create pitch risers, add tape stop effects & slices, or other new dynamic sound effects. All by simply holding down the button!

DIRECT CATEGORY ACCESS

Yamaha added Direct Category Access buttons to the user interface. Push the buttons for instantaneous access to the Voices and Styles you need for the musical genre of your choice.

MIC INPUT & VOCAL EFFECT

Connect a microphone and sing along with your playing while using built-in studio-quality vocal effects, giving you everything you need for a pro-sounding performance.

MEGA BOOST

Press the Mega Boost button to add +6dB of powerful volume! This function adds 6dB to the current volume level set by the volume knob. Adding a boost to the instruments speaker volume allows you to play with others or be heard above the crowd, even without a PA system.

INDIVIDUAL L/R OUTPUT

Both PSR-E473 and PSR-EW425 come equipped with left and right audio outputs that allow you to easily connect to PA systems and studio equipment — you also have a dedicated headphones jack

SETTING THE NEW STANDARD

Setting the new standard for portable keyboards. The PSR-EW310 comes with 76 touch-sensitive keys, the PSR-E373 with 61. Their extensive library with 622 international instrument Voices opens up a new world of exploration.
