About Yamaha Console Extension

"Yamaha Console Extension" is a software plug-in developed by Yamaha to enhance the functions of Steinberg Nuendo Live DAW software. Simply by installing Yamaha Console Extension and connecting a Yamaha Digital mixer (such as the CL series) to your computer, you can take advantage of various features which enable you to link Nuendo Live with the Yamaha consoles. This Installation Guide covers how to install Yamaha Console Extension.

Minimum System Requirements

These are basically the same as those of the Nuendo Live as a host application. Keep in mind that the software is often updated and the system requirements are subject to change. You can check the latest version information of each program and its system requirements at the following website

http://www.steinberg.net

The system requirements may differ slightly depending on the particular computer.
