FCC INFORMATION (U.S.A.)

1. IMPORTANT NOTICE: DO NOT MODIFY THIS UNIT!

This product, when installed as indicated in the instructions contained in this manual, meets FCC requirements. Modifications not expressly approved by Yamaha may void your authority, granted by the FCC, to use the product.

2. IMPORTANT:

When connecting this product to accessories and/or another product use only high quality shielded cables. Cable/s supplied with this product MUST be used. Follow all installation instructions. Failure to follow instructions could void your FCC authorization to use this product in the USA.

3. NOTE:

This product has been tested and found to comply with the requirements listed in FCC Regulations, Part 15 for Class "B" digital devices. Compliance with these requirements provides a reasonable level of assurance that your use of this product in a residential environment will not result in harmful interference with other electronic devices. This equipment generates/uses radio frequencies and, if not installed and used according to the instructions found in the users manual, may cause interference harmful to the operation of other electronic

devices. Compliance with FCC regulations does not guarantee that interference will not occur in all installations. If this product is found to be the source of interference, which can be determined by turning the unit "OFF" and "ON", please try to eliminate the problem by using one of the following measures:

Relocate either this product or the device that is being affected by the interference.

Utilize power outlets that are on different branch (circuit breaker or fuse) circuits or install AC line filter/s.

In the case of radio or TV interference, relocate/reorient the antenna. If the antenna lead-in is 300 ohm ribbon lead, change the lead-in to co-axial type cable.

If these corrective measures do not produce satisfactory results, please contact the local retailer authorized to distribute this type of product. If you can not locate the appropriate retailer, please contact Yamaha Corporation of America, Electronic Service Division, 6600 Orangethorpe Ave, Buena Park, CA90620

The above statements apply ONLY to those products distributed by Yamaha Corporation of America or its subsidiaries.

* This applies only to products distributed by YAMAHA CORPORATION OF AMERICA. (class B)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

PRECAUTIONS

PLEASE READ CAREFULLY BEFORE PROCEEDING

Please keep this manual in a safe place for future reference.

WARNING

Always follow the basic precautions listed below to avoid the possibility of serious injury or even death from electrical shock, short-circuiting, damages, fire or other hazards. These precautions include, but are not limited to, the following:

- Before installing the card in a device, check to make sure that the device is compatible with the card. Also, do not install the card in any Yamaha products not specified by Yamaha for use with the card in order to avoid possible electrical shock, fire, or device damage.
- Do not attempt to disassemble or modify the card. Do not apply excessive force to card connectors or other card components. Mishandling of the card may lead to shock, fire hazard, or device failure.
- Be sure to disconnect the power cable of the host device before installing the card and connecting/disconnecting the cables (in order to eliminate shock hazard, undesired noise, and avoid device damage).
- Turn off all peripheral devices connected to the host device before installation, and unplug all related cables.
- Do not place any burning items or open flames near the device, since they may cause a fire.

CAUTION

Always follow the basic precautions listed below to avoid the possibility of physical injury to you or others, or damage to the device or other property. These precautions include, but are not limited to, the following:

- Be sure to properly ground the host device to prevent electrical shock and/or malfunction.
- Do not touch the metallic leads (pins) of the circuit board when handling the card. The pins are sharp and may cause hand cuts.
- Wear a pair of heavy gloves during installation to avoid scratching or cutting your hands on sharp edges.

- Do not place the device in a location where it may come into contact with corrosive gases or salt air. Doing so may result in malfunction.
- Do not look at the laser light. This product uses a laser. Be careful to avoid looking at the ends of the optical fibers or the optical connectors. In the event you look at the laser, it may damage your eyes.

Yamaha cannot be held responsible for damage caused by improper use or modifications to the device, or data that is lost or destroyed.

NOTICE

To avoid the possibility of malfunction/ damage to the product, damage to data, or damage to other property, follow the notices below.

- Avoid touching exposed connectors and metal parts to minimize the possibility of bad connections.
- Drain all static electricity from your clothing and body before handling the card. Static electricity can damage the card. Touch an exposed metal part of the host device or other grounded object beforehand.
- Do not drop the card or subject it to physical shock as this can result in breakage and/or malfunction.

Handling and maintenance

- Do not expose the device to excessive dust or vibration, or extreme cold or heat (such as in direct sunlight, near a heater, or in a car during the day), in order to prevent the possibility of panel disfiguration, unstable operation, or damage to the internal components.
- Do not place vinyl, plastic or rubber objects on the device, since this might discolor the panel.
- When cleaning the device, use a dry and soft cloth. Do not use paint thinners, solvents, cleaning fluids, or chemical-impregnated wiping cloths.
- Condensation can occur in the device due to rapid, drastic changes in ambient temperature — when the device is moved from one location to another, or air conditioning is turned on or off, for example. Using the device while condensation is present can cause damage. If there is reason to believe that condensation might have occurred, leave the device for several hours without turning on the power until the condensation has completely dried out.

Introduction

Thank you for choosing a Yamaha HY256-TL-SMF Audio Interface Card. The HY256-TL-SMF is a digital I/O card for HY card slots, and compatible with Yamaha's TWINLANe* audio network protocol.

To take full advantage of the superior features and performance offered by your HY256-TL-SMF, and to enjoy years of trouble-free use, please read this owner's manual carefully before using your card. After you have read the manual, keep it in a safe place.

* TWINLANe can transmit audio signals over a maximum of 400 channels and control signals via a single cable. Refer to the RIVAGE PM10 Operation Manual for details.

Main Features

- Can send and receive uncompressed digital audio signals of 32-bit 96 kHz quality via single-mode optical fiber cable, with a maximum of 256 inputs/256 outputs.
- Redundant connections are supported with ring topology.
- Indicators show communication status useful for troubleshooting.

Installation

Refer to the leaflet included with the card for installation.

Refer to the owner's manual supplied with each device for more information about installation and removal.

Accessories

- Owner's Manual (this document)
- Card installation instructions leaflet

Part Names and Functions

1 TWINLANE IN and OUT connectors

For connecting to an I/O network.*

* A network between DSP engines and I/O racks. Refer to the RIVAGE PM10 Operation Manual for details.

NOTE

- Use Neutrik opticalCON DUO single-mode optical fiber cables. Optical fiber cable is easily damaged by bending and pulling. Using cable that has a locking mechanism and strong insulation can help to reduce trouble.
- Cables of up to 2 km can be used. (node-to-node distance)
- Total cable length must be within 6 km.
- The HY256-TL-SMF cannot be combined with the HY256-TL in the same TWINLANE network.

Cleaning

Correct communication might not be possible if debris and/or dust has adhered to the ends of optical fiber cables or the connectors. Clean the equipment regularly by using commercially available optical fiber cleaning products.

2 Card installation/removal lever

Used for installing/removing the card. Refer to the leaflet included with the card for installation.

Refer to the owner's manual supplied with each device for more information about installation and removal.

3 ERR indicators

Flash or light when an error occurs in the card.

Red (flashes)	When these IN/OUT indicator both rapidly flash (four times/second) at the same time, this indicates that a problem has occurred in the software of the card. Try turning off the power to the system. If the problem persists, an internal failure may have occurred.
Red (flashes)	When the indicator of the connector for which the error occurred flashes one time/second, this indicates that optical power has dropped. Try the steps listed below. If the problem persists, the device will continue to operate but an inspection is required as soon as possible.
Red (lights)	Communication is not possible. Try the steps listed below. If the problem persists, an internal failure might have occurred.

- Make sure that each fiber optic cable is securely connected and locked.
- Clean both ends of the cables and the connectors on the card by using commercially available optical fiber cleaning products.
- A fiber optic cable may be damaged. Replace the cable with another one.

If the ERR indicators do not go off after performing these steps, have the card inspected by qualified Yamaha service personnel.

4 LINK indicators

Flash or light according to network status.

Green (flashes)	<p>Preparing to connect to the TWINLANe network. If this status persists, the card is not operating correctly. If the following steps do not resolve the problem, have the card inspected by qualified Yamaha service personnel.</p> <ul style="list-style-type: none">• Turn the power to the system off and back on again.• Check if the DSP engines and I/O racks are connected to the TWINLANe network.• Check if cables are connected correctly.
Green (lights)	<p>The TWINLANe network communication has been established properly.</p>

5 TX and RX indicators

The appropriate indicator flashes in green when data is transmitted from (TX) or received at (RX) the TWINLANe IN and OUT connectors.

Information for users on collection and disposal of old equipment:

This symbol on the products, packaging, and/or accompanying documents means that used electrical and electronic products should not be mixed with general household waste.

For proper treatment, recovery and recycling of old products, please take them to applicable collection points, in accordance with your national legislation.

By disposing of these products correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment which could otherwise arise from inappropriate waste handling.

For more information about collection and recycling of old products, please contact your local municipality, your waste disposal service or the point of sale where you purchased the items.

For business users in the European Union:

If you wish to discard electrical and electronic equipment, please contact your dealer or supplier for further information.

Information on Disposal in other Countries outside the European Union:

This symbol is only valid in the European Union. If you wish to discard these items, please contact your local authorities or dealer and ask for the correct method of disposal.
