

**Carte plug-in DX/TX avancée Yamaha**

# **PLG100-DX**

**Mode d'emploi**

# Précautions

- Ne soumettez pas la carte plug-in aux rayons du soleil, à une humidité excessive, à de hautes températures, à une poussière excessive ou à de fortes vibrations.
- Avant de manipuler la carte plug-in, veillez à prendre une surface métallique en main afin de décharger toute électricité statique corporelle.
- Lorsque vous tenez la carte plug-in en main, ne touchez pas la zone centrale de la carte et n'exercez pas de pression excessive sur la carte. Protégez la carte contre tout contact avec de l'eau ou tout autre liquide.
- Avant d'installer la carte-fille sur une carte son, débranchez la prise secteur de votre ordinateur.

● Avant de brancher l'ordinateur à d'autres appareils, coupez l'alimentation de tous les appareils.

● Yamaha ne peut être tenu responsable de la perte de données résultant de dysfonctionnements de l'ordinateur ou de manipulations effectuées par l'opérateur.

● La carte plug-in ne contient aucun élément réparable par l'utilisateur. Ne touchez donc jamais la section interne du circuit imprimé. Vous risquez de vous électrocuter ou d'endommager la carte.

**YAMAHA NE PEUT ETRE TENU RESPONSABLE DE  
DOMMAGES RESULTANT D'UNE MAUVAISE  
MANIPULATION OU UTILISATION DE LA CARTE.**

\* Les noms de firmes et de produits cités dans ce mode d'emploi sont des marques commerciales ou déposées appartenant à leurs détenteurs respectifs.

## FCC INFORMATION (U.S.A.)

### 1. IMPORTANT NOTICE: DO NOT MODIFY THIS UNIT!

This product, when installed as indicated in the instructions contained in this manual, meets FCC requirements. Modifications not expressly approved by Yamaha may void your authority, granted by the FCC, to use the product.

**2. IMPORTANT:** When connecting this product to accessories and/or another product use only high quality shielded cables. Cable/s supplied with this product MUST be used. Follow all installation instructions. Failure to follow instructions could void your FCC authorization to use this product in the USA.

**3. NOTE:** This product has been tested and found to comply with the requirements listed in FCC Regulations, Part 15 for Class "B" digital devices. Compliance with these requirements provides a reasonable level of assurance that your use of this product in a residential environment will not result in harmful interference with other electronic devices. This equipment generates/uses radio frequencies and, if not installed and used according to the instructions found in the users manual, may cause interference harmful to the operation of other electronic devices. Compliance with FCC regulations does not guarantee that interference will not occur in all installations. If this product is found to be the source of interference, which can be determined by turning the unit "OFF" and "ON", please try to eliminate the problem by using one of the following measures:

Relocate either this product or the device that is being affected by the interference.

Utilize power outlets that are on different branch (circuit breaker or fuse) circuits or install AC line filter/s.

In the case of radio or TV interference, relocate/reorient the antenna. If the antenna lead-in is 300 ohm ribbon lead, change the lead-in to co-axial type cable.

If these corrective measures do not produce satisfactory results, please contact the local retailer authorized to distribute this type of product. If you can not locate the appropriate, please contact Yamaha Corporation of America, Electronic Service Division, 6600 Orangethorpe Ave, Buena Park, CA 90620

\* This applies only to products distributed by YAMAHA CORPORATION OF AMERICA.

## CANADA

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

- This applies only to products distributed by Yamaha Canada Music Ltd.
- Ceci ne s'applique qu'aux produits distribués par Yamaha Canada Musique Ltée.

# Introduction

Nous vous remercions d'avoir porté votre choix sur la carte plug-in XG Yamaha PLG100-DX. La PLG100-DX est un générateur de sons FM à six opérateurs équivalent à celui qui a fait la gloire du DX7. La PLG100-DX est compatible avec le système de plug-ins XG et vous pouvez l'installer dans le MU128 ou tout autre générateur de son ou séquenceur qui supporte les plug-ins XG. Une fois qu'elle est installée, vous avez les célèbres sons FM au bout des doigts. La PLG100-DX offre 912 sons DX présélectionnés et permet de transmettre les données de sons du DX7 et DX7II via MIDI.

Pour installer votre carte PLG100-DX correctement et profiter pleinement de ses superbes fonctions, veuillez lire attentivement ce mode d'emploi. Rangez-le ensuite dans un endroit sûr où vous pouvez le retrouver facilement chaque fois que vous en avez besoin.

## Sommaire

FRANÇAIS

### Système de plug-ins XG

Avec le système de plug-ins XG de Yamaha, vous pouvez élargir votre système de génération de son en ajoutant simplement une carte disponible en option sur votre générateur de sons ou carte son "mère". Vous êtes ainsi en mesure d'utiliser des sons provenant d'une synthèse inédite telle que Virtual Acoustic, d'ajouter une dimension nouvelle à votre musique par des effets inattendus et de laisser votre musique profiter au mieux des technologies de pointe.

### DX-XG

L'extension DX pour XG ("DX Extension for XG", abrégée DX-XG) incluse dans la PLG100-DX élargit considérablement les possibilités du format XG en lui ajoutant la sonorité exceptionnelle et le potentiel expressif de la synthèse FM de Yamaha. La PLG100-DX offre les célèbres sons produits par la synthèse FM et découverts sur le légendaire DX7 de Yamaha. Branchez cette carte à votre générateur/carte son afin de disposer de 912 superbes sons FM d'une polyphonie à 16 voix.

## Caractéristiques de la PLG100-DX

- **Dispose du même générateur de sons FM que la fameuse série DX.**

La PLG100-DX fait appel à un système de synthèse qui, avec ses six opérateurs et ses 32 algorithmes, a séduit les musiciens sur les synthétiseurs de la série DX, tels que le DX7 et le DX7II.

- **Polyphonie maximale de 16 voix**

Garantit une polyphonie de 16 voix à l'instar des DX7 et DX7II. Il suffit d'ailleurs d'installer plusieurs cartes PLG100-DX pour obtenir une polyphonie maximale de 128 voix (avec huit cartes). Si vous installez, par exemple, trois cartes PLG100-DX dans le générateur de sons MU128, vous bénéficiez d'une polyphonie maximale de 48 voix.

- **912 sons présélectionnés**

La PLG100-DX offre une palette de 912 sons présélectionnés allant du piano électrique à la basse en passant par les effets spéciaux. Ces sons ont été sélectionnés sur base des sons qui ont fait la célébrité de la série DX.

- **Echange de blocs de données de son entre le DX7 et le DX7II**

Comme la PLG100-DX est compatible avec la série DX, elle peut servir pour effectuer des transferts de blocs de paramètres de sons entre le DX7 et le DX7II. Le DX7 et le DX7II peuvent faire fonction d'éditeur pour la PLG100-DX. Avec les logiciels d'édition pour le DX7 et le DX7II, vous pouvez éditer les paramètres pour la PLG100-DX. Les paramètres des DX1, DX5, DX7S, TF1 (tel que le TX816) TX7 et le TX802 sont aussi reconnus.

• *Certains sons peuvent être légèrement différents des sons des instruments mentionnés ci-dessus.*

- **Filtre passe-bas, filtre passe-haut et égaliseur à deux bandes.**

Un filtre passe-bas, un filtre passe-haut ainsi qu'un égaliseur à deux bandes sont intégrés dans la PLG100-DX. Vous pouvez vous servir de ces fonctions et les combiner avec les paramètres d'édition de son pour générateur de sons FM afin de créer des nouveautés. Même si vous installez la PLG100-DX sur une plate-forme qui ne dispose pas de ces fonctions, les filtres et l'égaliseur intégrés de la PLG100-DX fonctionneront.

- **Compatible avec le système de plug-ins XG**

Comme la PLG100-DX est une carte plug-in XG, elle peut être installée sur n'importe quel générateur de sons accueillant des plug-ins XG, tel que le MU128.

## Installation de la PLG100-DX

Pour installer la carte PLG100-DX, voyez le manuel accompagnant le générateur de sons "mère" (tel que le MU128 ou SW1000XG) ou le synthétiseur.

## Accessoires inclus

Les accessoires ci-dessous sont fournis avec votre carte PLG100-DX. Avant d'utiliser la carte, assurez-vous que rien ne manque. Dans l'éventualité rare où un article manquerait, veuillez contacter le revendeur chez qui vous avez acheté votre PLG100-DX aussi vite que possible.

- **Carte PLG100-DX**
- **Mode d'emploi de la PLG100-DX**
- **CD-ROM "XGtools"**

## Accessoires non inclus mais indispensables

### Générateur de sons XG ou synthétiseur

Pour utiliser votre PLG100-DX, il vous faut un générateur de sons ou un synthétiseur doté d'une fonction XG Plug-in compatible avec le système de plug-ins XG, tel que le MU128 ou le SW1000XG.

Le MU128 et le SW1000XG sont dotés de fonctions de plate-forme XG Plug-in et peuvent accueillir la PLG100-DX.

Les logiciels décrits ci-dessous vous offrent un accès direct aux fonctions de la carte PLG100-DX.

### XGworks(lite)

Si vous utilisez XGworks(lite) de Yamaha comme logiciel séquenceur, vous pouvez profiter des deux logiciels d'édition décrits ci-dessous, le "DX Simulator" et le "DX Easy Editor." Ces logiciels facilitent considérablement l'édition des sons de la carte PLG100-DX.

### DX Easy Editor

Le DX Easy Editor vous permet de changer indirectement les sons de la PLG100-DX en modifiant les paramètres de Parts. Avec ce logiciel, vous pouvez éditer les paramètres de Part XG (paramètres XG) communs à tous les Parts et les paramètres de Part propres à la PLG100-DX (paramètres DX). Les paramètres modifiés peuvent soit être insérés dans le morceau sous forme d'événements ou sauvegardés sous forme de fichier de paramètres DX.

Comme le DX Easy Editor est un logiciel plug-in pour XGworks(lite), il vous faut XGworks(lite) pour pouvoir l'utiliser.

Le DX Easy Editor est inclus sur le CD-ROM fourni avec la carte PLG100-DX.

## DX Simulator

Le DX Simulator est un logiciel d'édition spécial pour les sons personnels de la PLG100-DX. Lorsque vous lancez le programme, une image de la face avant du DX7 s'affiche. Utilisez la souris pour actionner les commandes et curseurs afin d'éditer les sons comme sur un véritable DX7. Vous pouvez également afficher une liste d'édition vous permettant d'éditer des sons en vérifiant tous les paramètres affichés dans un tableau. Les données de sons éditées peuvent ensuite être sauvegardées en mémoire ou dans un fichier, voire insérées dans une piste sous forme de blocs de données.

Comme le DX Simulator est un logiciel plug-in pour XGworks(lite), il vous faut XGworks(lite) pour pouvoir l'utiliser.

Le DX Simulator est inclus sur le CD-ROM fourni avec la carte PLG100-DX.

## Fiche technique

**Type de générateur de sons:**

Générateur de sons FM avec six opérateurs et 32 algorithmes

**Polyphonie maximale:**

16 voix (priorité à la dernière)

En combinant plusieurs cartes, la polyphonie peut atteindre 128 voix (avec 8 cartes)

**Filtres:**

Egaliseur de Part (2 bandes), filtre passe-bas, filtre passe-haut (ne fonctionne que lorsque la plate-forme pour la PLG100-DX n'a pas de fonctions de filtre)

**Interface:**

Connecteur pour plug-in XG

**Nombre de sons:**

912 présélections, 64 sons personnels

**Blocs de données pouvant être reçus d'autres appareils:**

DX7 Tampon d'édition de sons, paquet de 32 sons

DX7II Tampon d'édition de sons, paquet de 32 sons, une partie du tampon d'édition supplémentaire, une partie du paquet supplémentaire (plage Pitch EG, rs, Velocity switch, Unison Detune, AMS, Random Pitch, Poly/Mono, Unison Sw, Pitch Bend Range, Step, Portamento Mode, Step, Time)

**Changements de paramètres pouvant être reçus d'autres appareils:**

DX7 VCED, une partie de ACED (plage Pitch EG, rs, Velocity switch, Unison Detune, AMS, Random Pitch, Poly/Mono, Unison Sw, Pitch Bend Range, Step, Portamento Mode, Step, Time)

**Dimensions:**

138,5mm (L) x 89,0mm (P) x 8,5mm (H)

**Poids:** 63g**Accessoires inclus:**

Mode d'emploi, CD-ROM x 1

\*Les caractéristiques technique ou les dimensions peuvent changer sans avis préalable afin d'améliorer encore le produit.

## Le CD-ROM

Outre les deux logiciels plug-ins, les DX Simulator et DX Easy Editor, le CD-ROM fourni avec votre carte contient également plusieurs morceaux de démonstration qui illustrent les caractéristiques de la PLG100-DX ainsi que des données de performance (réglages de sons) que vous pouvez utiliser sur la plate-forme sur laquelle vous avez installé votre PLG100-DX. Les morceaux de démonstration peuvent être reproduits par un logiciel séquenceur tel que XGworks V2.0 ou XGworks(lite), ou par un QY700. (Il faut alors une plate-forme permettant de brancher la PLG100-DX.) Servez-vous du même logiciel séquenceur ou du même appareil pour transmettre les données de performance sous forme de blocs de données à la plate-forme de la PLG100-DX.

### ● Morceaux de démonstration

#### **“Ie Kia Bara Hein” (IeKiaBar.MID) de Noritaka Ubukata (Shofuku)**

Le titre du morceau signifie “Quel est ce sortilège?” en langue Hindi. Il utilise un son de santur (tympanon à marteau) et de sitar.

#### **“DX VOICE” (DXVoice.MID) de Noritaka Ubukata (Shofuku)**

Ce morceau commence avec du piano électrique et propose toute une série de sons du DX7 Shofuku. A la différence de l’échantillonnage, cette musique offre de subtiles variations sonores provoquées par les changements de toucher. Une autre caractéristique spéciale est le choeur FM qui permet de créer un son plus réaliste en combinant synthèse FM et voix humaines échantillonnées.

#### **“Vel&EffectWorks1” (V1\_EfWk1.MID)**

#### **“Vel&EffectWorks2” (V1\_EfWk2.MID)**

#### **“DX Short Demo” (DxShtDM.MID) de Yasuhiko Fukuda (Shofuku)**

Ces morceaux illustrent une caractéristique typiquement FM: les violents changements de son provoqués par le toucher.

#### **“80’s Pops” (80Pop.MID) de Katsumi Nagae (Idecs Inc.)**

Rappelle la scène pop des années ‘80 avec des nappes de synthé et des sons métalliques.

#### **“D-Rock” (D-Rock.MID) de Katsumi Nagae (Idecs Inc.)**

Ce morceau reprend les sons de rock numériques utilisant les sons de système SE et de bruit propre aux DX.

Si vous souhaitez vous servir de sons numériques, rien ne vaut le DX!

#### **“EP Ballade” (EP.MID) de Katsumi Nagae (Idecs Inc.)**

Si vous préférez les ballades, rien de mieux que le piano électrique DX. La partition jouée par le piano électrique donnera aussi bien avec différents pianos. Essayez.

## “House” (HOUSE.MID) de Katsumi Nagae (Idecs Inc.)

Le son typique de la musique House est repris dans ce morceau qui expérimente la reproduction de phrases échantillonnées avec le système de son DX. En outre, la deuxième partie du morceau propose un son métallique, véritable point fort des DX.

## “Jungle” (DXJungle.MID) de Katsumi Nagae (Idecs Inc.)

Ce morceau ajoute une note chinoise à la musique Jungle. L’image orientale est soulignée par les sons SE plug-in “CHINA\_S&” et “IMAGE9”.

Si vous n’entendez aucun son ou si vous avez d’autres problèmes, voyez la section “Dépannage” (→p. 59).

## Installation et démarrage du logiciel plug-in (Windows95)

### ■ Installation du logiciel plug-in .....

Double-cliquez sur le fichier Setup.exe du dossier Plug\_ sur le CD-ROM afin de lancer l’installation.

Cliquez sur “Suivant” ou “Oui” lorsque ces options s’affichent pour achever l’installation.

### ■ Démarrage du DX Easy Editor .....

1. Lancez XGworks(lite).
2. Sélectionnez “DX Easy Editor” dans le menu Plug-in de XGworks(lite).  
La fenêtre de dialogue “Sélection du Part DX” s’ouvre.
3. Choisissez le Part assigné à la PLG100-DX, puis cliquez sur le bouton [OK].  
S’il y a des blocs de données DX dans les données de séquence, la marque DX s’affiche sous le numéro de Part.

Ouvrez la fenêtre DX Easy Editor.

- NOTE**
- Pour en savoir plus sur l'utilisation du DX Easy Editor, voyez l'aide en ligne du DX Easy Editor.
  - Si le DX Easy Editor n'apparaît pas dans le menu Plug-in de XGworks(lite), il est possible que le logiciel ne soit pas correctement installé dans le dossier XGworks(lite). Vous pouvez l'installer avec le programme d'installation de plug-ins.

## ■ Démarrage du DX Simulator .....

1. Lancez XGworks(lite).
2. Sélectionnez “Select DX Simulator” dans le menu Plug-in de XGworks(lite). La fenêtre de dialogue “Select DX Part” s’ouvre.
3. Choisissez le Part assigné à la PLG100-DX, puis cliquez sur le bouton [OK]. S'il y a des blocs de données DX dans les données de séquence, la marque DX s'affiche sous le numéro de Part.

Ouvrez la fenêtre DX Simulator.

- NOTE**
- Pour en savoir plus sur l'utilisation du DX Simulator, voyez son aide en ligne.
  - Si le DX Simulator n'apparaît pas dans le menu Plug-in de XGworks(lite), il est possible que le logiciel ne soit pas correctement installé dans le dossier XGworks(lite). Vous pouvez l'installer avec le programme d'installation de plug-ins.

# Synthèse FM

Avant de nous lancer dans l'édition des sons PLG100-DX, voyons d'abord comment fonctionne la synthèse FM.

## Opérateurs

La PLG100-DX contient six dispositifs appelés opérateurs qui produisent des sinusoïdes. Ces opérateurs peuvent être assemblés de manière différente afin de générer des sons différents. Voici les fonctions offertes par ces opérateurs.

- (1) **La fréquence (hauteur) de la sinusoïde est réglable.**
- (2) **L'amplitude (volume) de la sinusoïde est également réglable.**

Une sinusoïde ne contient que la fondamentale d'une note, sans harmoniques.

## Combinaison de deux opérateurs

Les six opérateurs offrent d'innombrables combinaisons possibles mais nous nous limiterons ici aux combinaisons offertes par deux opérateurs.

Pour une paire d'opérateurs, vous disposez de deux combinaisons possibles (les deux opérateurs sont appelés "A" et "B" ci-dessous):

### (1) Lien horizontal

Lorsque deux opérateurs sont reliés horizontalement, ils sont mixés et reproduits ensemble. Le son (la sinusoïde) est donc le résultat de la reproduction de A et B.

### (2) Lien vertical

Avec un lien vertical, l'opérateur B sert à modifier le timbre de l'opérateur A situé en-dessous. Il en résulte une forme d'onde complexe contenant de nombreuses harmoniques reproduites par l'opérateur A. Comme l'opérateur B ne sert qu'à modifier le timbre de l'opérateur A, il est inaudible. L'opérateur A génère donc le son qui est ensuite influencé par l'opérateur B. Lorsque l'opérateur du haut modifie le timbre de l'opérateur du bas, ce processus est baptisé modulation de fréquence (FM) ou modulation tout simplement.

Résumons-nous:

- Lien horizontal ....      Les 2 opérateurs génèrent un son.
- Lien vertical              Un opérateur change le timbre de l'autre.  
Cet autre générateur est le seul à produire du son.

Avec un lien vertical, les opérateurs ont des fonctions différentes.

## Porteur et modulateur

La fonction de deux opérateurs dans un lien vertical est définie par leur appellation: l'un est "porteur", l'autre "modulateur".

- Porteur (Carrier).. Un opérateur qui se trouve dans le bas de la pile génère le son. (Nous avions appelé cet opérateur "A").
- Modulateur ..... Un opérateur qui se trouve au-dessus du porteur et qui en modifie (module) le timbre. (Nous avions appelé cet opérateur "B").

Pour des combinaisons incluant trois opérateurs ou plus, il n'y a que des porteurs et des modulateurs. La fonction des opérateurs dépend de l'"étage" auquel ils se trouvent.

- (1) Lorsque tous les opérateurs se trouvent sur le même plan, ils font tous fonction de porteur. Dans ce cas, il n'y a pas de modulateur et toutes les formes d'onde produites sont des sinusoïdes.
- (2) Avec des empilements à trois étages, seul l'opérateur du bas est porteur. L'opérateur du dessus module celui situé en-dessous. La forme d'onde modulée du deuxième opérateur module à son tour le porteur. La modulation du porteur est plus profonde et le son a plus d'harmoniques.
- (3) Vous avez ici un modulateur et deux porteurs. Le modulateur modifie le timbre du porteur situé en-dessous. Le deuxième porteur, lui, génère une sinusoïde. Le signal modulé et la sinusoïde sont mixés et produits simultanément.
- (4) Ici, un porteur est influencé par deux modulateurs mis en parallèle. Vous pouvez régler les modulateurs séparément. Avec deux modulateurs, le contenu en harmoniques devient nettement plus riche.
- (5) Voici deux paires d'opérateurs placées en parallèle. L'opérateur du dessus module celui situé en-dessous et produit ainsi des harmoniques. L'ensemble est mixé pour former le son.

## Harmoniques

La plupart des sons naturels sont constitués d'une multitude de sons de différentes hauteurs. Un de ces sons détermine la hauteur du son global, il s'agit de la "fondamentale" (la fréquence de base). Les autres sons constituent les "harmoniques".

Lorsque toutes les harmoniques apparentées à une fondamentale sont présentes, on appelle cela une "suite harmonique". Chaque harmonique a un nom: la fondamentale est la première harmonique puis vient la deuxième, la troisième, etc.

En règle générale, la fréquence des harmoniques est un multiple entier de la fondamentale. Les fréquences qui ne sont pas des multiples entiers de la fondamentale ne sont pas harmoniques.

Plus un son contient d'harmoniques, plus son timbre est brillant; moins il en contient, plus il s'assombrit. Le type et le volume des harmoniques ont également leur rôle à jouer dans la création du son. Si un son contient beaucoup d'harmoniques aiguës, ce son est brillant et clair. Un son contenant de nombreuses harmoniques graves semble plus "massif", plus solennel.

## Algorithmes

Il n'y a peut-être que deux manières de combiner deux opérateurs mais lorsque vous en avez six, les possibilités de combinaison ne se comptent plus. Ces combinaisons sont appelées "algorithmes". Le DX7 et la PLG100-DX offrent 32 algorithmes pouvant servir de point de départ pour la programmation de sons.

Avec la synthèse FM, le choix d'un algorithme détermine le type de combinaison des six opérateurs. C'est pourquoi, avant d'éditer un son, il faut toujours vérifier le type d'algorithme utilisé.

Les algorithmes sont numérotés de 1 à 32. Voyez le "Tableau des algorithmes" (→p. 28).

Les opérateurs sont également numérotés de 1 à 6 afin de les distinguer.

Prenons, par exemple, l'algorithme "28". Les opérateurs y sont combinés comme suit:

- Opérateur 1 ..... Produit un son et est d'abord modulé par l'opérateur 2 (porteur).
- Opérateur 2 ..... Module l'opérateur 1 (modulateur).
- Opérateur 3 ..... Produit un son et est d'abord modulé par l'opérateur 4 (porteur).
- Opérateur 4 ..... Module l'opérateur 3 et est d'abord modulé par l'opérateur 5 (modulateur).
- Opérateur 5 ..... Module l'opérateur 4 et est d'abord modulé par son propre feedback (modulateur).
- Opérateur 6 ..... Produit une sinusoïde (porteur).

## Feedback (rétroaction)

Le feedback est une fonction qui renvoie le signal de sortie d'un opérateur à son entrée afin que l'opérateur s'auto-module. Le recours au feedback enrichit le son.

Les 32 algorithmes offrent une boucle de feedback. L'algorithme 4 fait même appel au signal combiné de trois opérateurs comme signal de rétroaction. Comme le signal de sortie de l'opérateur 4 est envoyé à l'opérateur, le son qui en résulte est particulièrement brillant.

Algorithme 4

## Les composants principaux d'un son

Un son dépend des facteurs principaux suivants:

- (1) Niveau de sortie des différents opérateurs (OUTPUT LEVEL).
- (2) Fréquence (hauteur) des opérateurs (OUTPUT FREQUENCY).
- (3) Intensité de la rétroaction (FEEDBACK LEVEL).
- (4) Générateur d'enveloppe (EG).

Vous trouverez ci-dessous une description de ces divers facteurs.

### (1) Niveau de sortie des différents opérateurs

Lors de l'édition des sons, le volume des opérateurs joue un rôle important. Le volume des modulateurs est plus important que celui des porteurs. Exemple: lorsque deux opérateurs sont reliés verticalement, le porteur (A) produit une sinusoïde lorsque le niveau de sortie du modulateur (B) se trouve sur "0" (pas d'harmoniques). Augmentez doucement le niveau du modulateur pour augmenter la modulation et ajouter toujours plus d'harmoniques au porteur. Plus il y a d'harmoniques, plus le son est clair (jusqu'à devenir un grincement désagréable).

L'intensité de la modulation qui détermine le timbre du son dépend donc du niveau de sortie (volume) du modulateur.

Comme le porteur produit le son, tout changement de son niveau de sortie produit un changement de volume du son global. S'il n'y a qu'un seul porteur, cela change simplement le volume global. Toutefois, s'il y a plusieurs porteurs dans l'algorithme, le timbre peut également être modifié s'il y a un changement de balance de volume entre les porteurs.

En résumé:

- Le son change en fonction du niveau de sortie des modulateurs.
- Le volume change en fonction du niveau de sortie des porteurs. Le timbre du son peut également changer s'il y a un changement de balance de volume entre différents porteurs.

## (2) La fréquence des opérateurs

Le type d'harmoniques ajoutées au porteur par le modulateur est déterminé par le rapport entre les fréquences du modulateur et du porteur. Ainsi, lorsqu'il y a lien vertical des deux opérateurs et si vous réglez le paramètre "F COARSE" des deux opérateurs sur "1.00", le rapport de fréquence est de "1:1" ce qui produit une série naturelle d'harmoniques (2ème, 3ème, 4ème, etc.) telle que celle d'une forme d'onde en dents de scie, par exemple. Ce type de forme d'onde est nécessaire pour programmer des sons de cordes, de cuivres et de piano.

Si vous réglez le paramètre "F COARSE" du modulateur sur "2.00", le rapport de fréquence devient "1:2" et ne produit plus que des harmoniques impaires (1, 3, 5 etc.). Cette structure est propre aux formes d'onde carrées qui permettent de produire des sons de bois (clarinette, hautbois, etc.).

Si vous utilisez également "F FINE" pour obtenir un rapport de fréquence qui ne repose plus sur des nombres entiers, vous produirez de nombreuses harmoniques non entières qui permettent de produire des sons métalliques ou des bruits de respiration.

**(3) FEEDBACK LEVEL (rétroaction)**

En augmentant le niveau de rétroaction, vous augmentez la modulation ce qui rend le son plus clair.

**(4) Générateur d'enveloppe (EG)**

L'enveloppe crée des changements du niveau de sortie dans le temps entre le moment où la touche est enfoncée et celui où elle est relâchée.

Si vous écoutez plusieurs instruments de musique, vous entendez très vite qu'outre le timbre, ils ont aussi une attaque et une chute fort différentes les uns des autres. Un piano, par exemple, produit un son très fort à l'attaque qui décroît ensuite doucement lorsque vous maintenez la touche enfoncée. De plus, le son est très brillant au début (avec de nombreuses harmoniques) puis s'assombrit.

Les paramètres déterminant ces changements de volume et de timbre dans le temps sont programmables et sont rassemblés dans la notion d'“enveloppe” (EG).

La synthèse FM prévoit un générateur d'enveloppe pour chaque opérateur. L'enveloppe d'un porteur change le volume dans le temps tandis que celle d'un modulateur change le timbre du son dans le temps.

# Configuration de la mémoire tampon

La mémoire tampon de la PLG100-DX est agencée comme suit.

- AVERTISSEMENT** • Avec un éditeur tel que le DX Simulator, il est possible d'éditer les sons personnels.

**NOTE** Utilisation de la banque personnelle (Custom)

- Lorsque vous utilisez la banque Custom, les paramètres suivants ne sont pas disponibles car ils sont sauvegardés sous forme de paramètres de sons.

Paramètres de Part XG Native

MONO/POLY MODE  
BEND PITCH CONTROL  
PORTAMENTO SWITCH  
PORTAMENTO TIME

Paramètres de Part PLG100-DX Native

PitchBend Step  
Portamento Step  
Portamento Mode

Si vous le souhaitez, vous pouvez transmettre les valeurs voulues pour MONO/POLY MODE, BEND PITCH CONTROL, PORTAMENTO SWITCH et PORTAMENTO TIME via MIDI avec des commandes de contrôle (CC). Si vous choisissez ensuite un autre son Custom, ce son utilisera toutefois ses propres valeurs.

- A la réception d'une commande XG System On ou lorsque vous changez l'assignation de Part, le tampon d'édition est initialisé. Toutefois, les 64 zones de mémoire de la section VMEM et AMEM ne changent pas.

# Sélection d'un son DX

Les sons de la PLG100-DX peuvent être sélectionnés comme les sons du générateur de sons XG. Cependant, pour pouvoir utiliser les sons DX, il faut sélectionner le mode XG ou Performance de l'instrument hôte XG. De plus, le Part/le niveau de performance assigné à la PLG100-DX doit être spécifié en mode auxiliaire (PLUGIN) du mode Utility du générateur de sons.

- Les affichages utilisés ci-dessous à titre d'illustration sont ceux du MU100. Il est possible que les affichages sur votre instrument soient légèrement différents.
- Certains générateurs de sons, comme le SW1000XG, n'offrent pas d'affichage. Il faut donc effectuer les changements avec des commandes SysEx (→ MIDI Data Format).
- Le SW1000XG ne dispose pas de mode Performance.

## ■ Sélection du son voulu .....

1. Réglez le mode Module du générateur de sons XG sur "XG" ou "PERFORM/PFM". Si vous avez choisi "XG", le générateur de sons passe en mode Multi. Si vous avez choisi "PERFORM/PFM", le générateur de sons passe en mode Performance Play.

- Les sons DX ne peuvent être sélectionnés que lorsque le mode Part est sur "Normal".
- En mode XG, un Part peut utiliser un son DX. En mode Performance, vous pouvez assigner un son DX à un niveau.

2. Utilisez les boutons [SELECT / ] pour amener le curseur sur le no. de banque.
3. Utilisez les boutons [VALUE / ] pour sélectionner la banque de sons. Selon la banque choisie, un des affichages suivants apparaîtra dans la zone du no. de banque: 000, 064~082, 096~109 (DX-XG/A); 000, 064~082 (DX-XG/B); 000 (DX-XG/SFX) ou 000 (Custom).

Lors de la sélection d'un son DX, une icône DX apparaît dans la zone réservée aux icônes.

- Notez que le numéro de banque affiché peut concerner les sons internes du générateur de sons XG. Gardez donc la zone des icônes à l'oeil: si vous y voyez une icône DX, vous avez choisi une banque de la PLG100-DX.

4. Utilisez les boutons [SELECT / ] pour amener le curseur sur le no. de programme.

## Sélection d'un son DX

- Utilisez les boutons [VALUE - / +] pour sélectionner un son.

- Lorsqu'un numéro de programme qui n'existe pas pour la PLG100-DX est sélectionné alors que la banque choisie est 000~099, l'icône pour le son sélectionné sur le générateur de sons est affichée.

## ■ Sélection du Part/du niveau de Performance .....

- Appuyez sur le bouton [UTIL] en face avant pour passer en mode Utility.

- Avec le bouton [SELECT ▶], amenez le curseur sur “PLUGIN” et appuyez sur la touche [ENTER].

- Utilisez les boutons [SELECT ◀ / ▶] pour amener le curseur sur “PLG100-DX” et appuyez ensuite sur [ENTER]. Vous affichez ainsi une page d'écran qui vous permet de sélectionner les paramètres système de la PLG100-DX.

- Appuyez sur les boutons [SELECT ◀ / ▶] jusqu'à ce que “PartAssign” s'affiche et utilisez les boutons [VALUE - / +] pour sélectionner le Part ou le niveau que vous voulez assigner à la PLG100-DX.

Si vous avez choisi “XG” comme mode Module, vous avez le choix entre 01~16 et “off”. Si vous avez choisi “PERFORM”, vous avez le choix entre 01~04 et “off”.

- Le SW1000XG ne dispose pas de mode Performance.

# ***Edition des paramètres du Part DX***

Les paramètres d'édition décrits ci-dessous sont disponibles pour tous les sons (de toutes les banques). Cela signifie que tout changement effectué sera transféré au nouveau son si vous en changez. L'édition faite pour le son précédent s'applique donc aussi au son nouveau.

- Si vous changez de son après avoir modifié les paramètres ou après avoir changé d'algorithme avec le DX Simulator, le volume peut augmenter dramatiquement. Soyez donc prudent lors du changement de son.

- Les valeurs des paramètres édités ne sont pas conservées dans la mémoire des sons Custom.
- Lorsque vous travaillez avec le DX Simulator, vous pouvez sauvegarder les sons édités sous forme de sons Custom.

1. En mode Multi Play, sélectionnez le Part assigné à la PLG100-DX et attribuez-lui un son.

2. Appuyez sur le bouton [EDIT].

Le menu d'édition Multi Part apparaît.

3. Utilisez [SELECT ◉] pour amener le curseur sur “PLUGIN”. Appuyez sur [ENTER]. La page de paramètres de la carte XG Plug-In choisie apparaît.

4. Utilisez les boutons [SELECT ◉ / ◉] pour amener le curseur sur le paramètre à modifier. Changez-en la valeur avec les boutons [VALUE - / +].

5. Actionnez plusieurs fois le bouton [EXIT] pour retourner à la page d'écran initiale.

- Les paramètres des Parts “normaux” que vous pouvez éditer en face avant du MU100 sont également disponibles pour les sons DX.

## ***Edition des paramètres du Part DX***

### **■ Paramètres du Part PLG100-DX .....**

#### **Carrier1 (Carrier Operator 1 Level) à Carrier6 (Carrier Operator 6 Level)**

**Plage:** -64 ~+63

**Explication:**

- Vous pouvez régler ici le volume de tous les opérateurs qui font fonction de porteur (Carrier).
- Les porteurs sont des opérateurs qui produisent du son. En modifiant le niveau de sortie du porteur, vous changez le volume du son. Lorsque ce son fait appel à plusieurs porteurs, le timbre du son peut aussi être modifié par le changement de balance de volume entre porteurs.
- Comme ce paramètre représente un changement relatif du niveau de sortie de tous les porteurs PLG100-DX, il change indirectement le timbre du son. Lorsque ce paramètre est réglé sur "0", le son ne change pas. Si vous optez pour "+1" ou plus, vous augmentez le volume alors que des valeurs négatives le diminuent.
- Les opérateurs faisant office de modulateurs sont représentés ainsi: "\*\*\*\*" et ne peuvent pas être édités ici. Avant d'éditer un son, vérifiez l'algorithme qu'il utilise (→p. 28). Vous saurez ainsi quels sont les opérateurs porteurs et modulateurs.

#### **Modulator1 (Modulator Operator 1 Level) à Modulator6 (Modulator Operator 6 Level)**

**Plage:** -64~+63

**Explication:**

- Vous pouvez changer le niveau de sortie des opérateurs modulateurs.
- Les modulateurs sont des opérateurs qui en modulent d'autres afin d'en changer le timbre. Plus le niveau de sortie du modulateur est élevé, plus le son est brillant (riche en harmoniques).
- Comme ce paramètre représente un changement relatif du niveau de sortie de tous les modulateurs PLG100-DX, il change indirectement le timbre du son. Lorsque ce paramètre est réglé sur "0", le son ne change pas. Si vous optez pour "+1" ou plus, vous augmentez le volume alors que des valeurs négatives le diminuent.
- Les opérateurs faisant office de porteurs sont représentés ainsi: "\*\*\*\*" et ne peuvent pas être édités ici. Avant d'éditer un son, vérifiez l'algorithme qu'il utilise (→p. 28). Vous saurez ainsi quels sont les opérateurs porteurs et modulateurs.

## **FeedBack**

**Plage:** -7~+7

**Explication:**

- Vous pouvez régler l'intensité de la rétroaction.
- Le feedback (rétroaction) est une fonction qui renvoie une partie du signal de sortie de l'opérateur à son entrée de sorte que l'opérateur s'auto-module. Le feedback modifie également le timbre du son (le contenu en harmoniques).
- Comme ce paramètre représente un changement relatif du paramètre Feedback du son PLG100-DX sélectionné, il change indirectement le timbre du son. Lorsque ce paramètre est réglé sur "0", le son ne change pas. Si vous optez pour "+1" ou plus, vous augmentez la teneur en harmoniques et rendez le son plus brillant alors que des valeurs négatives la diminuent et assombrissent le son.

## **PortaMd (Portamento Mode)**

**Possibilités:** flw/ftm, rtn/fgr

**Explication:**

- Le Portamento est un effet qui produit un glissement régulier entre deux notes de hauteur différente.
- La façon dont le Portamento est utilisé dépend du réglage du mode Portamento. Toutefois, il y aura une grande différence d'effet produit selon que le son sélectionné a un réglage Poly ou Mono.

**En mode Poly:**

- Si vous avez choisi "flw/ftm", l'effet Portamento s'applique aussi aux notes maintenues (à partir du moment où vous avez enfoncé la pédale forte) ainsi qu'à la section d'étoffement du son après relâchement de la touche. La hauteur de cette/ces note(s) glisse(nt) vers la hauteur des notes jouées ensuite.
- Si vous avez choisi "rtn/fgr", l'effet Portamento ne s'applique ni aux notes maintenues ni aux chutes des notes.

**En mode Mono:**

- Si vous avez choisi "flw/ftm", l'effet Portamento est normal.
- Si vous avez choisi "rtn/fgr", l'effet Portamento n'est disponible que si vous enfoncez la touche suivante avant de relâcher la première.

- Sur le DX7, ces paramètres s'appellent:

flw: Sus-key P Follow

ftm: Full Time Porta

rtn: Sus-key P Retain

fgr: Fingered Porta

## **PortaStep (Portamento Step)**

**Plage:** 0~12

**Explication:**

- Détermine la manière dont la hauteur est modifiée par le Portamento.
- La valeur "0" signifie que la hauteur glisse de façon continue.
- Avec une valeur comprise entre "1" et "12", la hauteur change par pas nettement délimités. La valeur "1" représente un demi-ton, "2" un ton, etc.

## ***Edition des paramètres du Part DX***

### **PitBndStep (Pitch Bend Step)**

**Plage:** 0~12

**Explication:**

- Détermine la manière dont la hauteur est modifiée par la molette Pitch Bend.
- La valeur “0” signifie que le changement de hauteur se fait de façon continue (réglage normal). Avec une valeur comprise entre “1” et “12”, la hauteur monte/descend du nombre correspondant de demi-tons (“1”= 1 demi-ton, “2”= 1 ton, etc.).

### **AC4 CC No. (AC4 Controller Assign)**

**Réglages:** OFF, MOD, BC, FC, EXP, CAT, PB

**Explication:**

- Lorsque le paramètre d’assignation de contrôleur AC4 est sur EGbias, ce paramètre détermine le contrôleur pilotant le paramètre EGbias.
- Voici les correspondances entre options et contrôleurs:

|           |                       |
|-----------|-----------------------|
| MOD ..... | Molette de modulation |
| BC .....  | Commande de souffle   |
| FC .....  | Contrôleur au pied    |
| EXP ..... | Pédale d’expression   |
| CAT ..... | Aftertouch canal      |
| PB .....  | Molette Pitch Bend    |

- Lorsque la sensibilité à la modulation d’amplitude (AMS) a été réglée sur Porteur, le contrôleur choisi avec ce paramètre change le volume en temps réel. Lorsque la sensibilité à la modulation d’amplitude (AMS) a été réglée sur Modulateur, le contrôleur modifie le timbre.

### **AC4CtrPrm1 (AC4 Controller Parameter 1)**

**Réglages:** Off, EGbias

**Explication:**

Détermine si EGbias est piloté par le contrôleur choisi avec le paramètre d’assignation de contrôleur AC4.

### **AC4CtrDpt1 (AC4 Controller Parameter Depth)**

**Plage:** -64 à +63

**Explication:**

Détermine l’intensité de l’opération lorsque EGbias est piloté par le contrôleur choisi avec le paramètre d’assignation de contrôleur AC4.

- *Lorsque AC4CtrPrm1 est réglé sur EGbias, le son peut changer lorsque AC4CtrDept1 a un réglage positif même si la sortie du contrôleur choisi avec AC4CCNo est zéro.*

### **RcvDxSysEx (Receive DX System Exclusive)**

**Réglages:** OFF, ON

**Explication:**

Détermine si les messages SysEx DX sont reçus ou non.

- *Les conditions suivantes doivent être remplies pour que les messages SysEx DX soient reçus.*

*Avec VCED, ACED (chang. de paramètre, Bulk Dump)*

*Bulk select: Custom Bank*

*RcvDxSysEx: ON*

*Avec VMEM, AMEM: (bulk dump, transfert de 32 sons)*

*RcvDxSysEx: ON*

# Paramètres système PLG100-DX

Les paramètres qui s'appliquent à tout le système de la PLG100-DX sont ajoutés aux utilitaires du générateur de sons XG principal.

1. Appuyez sur le bouton [UTIL].

Le menu du mode Utility apparaît.

2. Appuyez sur le bouton [SELECT ▶] et amenez le curseur sur "PLUGIN," puis actionnez le bouton [ENTER]. L'affichage de sélection de carte plug-in apparaît.

3. Appuyez sur les boutons [SELECT ◀ / ▶] et amenez le curseur sur la carte plug-in à modifier puis appuyez sur [ENTER] (sélectionnez la PLG100-DX ici). L'affichage des paramètres de la carte plug-in sélectionnée apparaît.

4. Appuyez sur les boutons [SELECT ◀ / ▶] et amenez le curseur sur le paramètre à modifier. Changez-en la valeur avec les boutons [VALUE - / +].
5. Actionnez plusieurs fois le bouton [EXIT] pour retourner à l'affichage initial.

## ■ Paramètres système .....

### PartAssign

Réglages: 1~16, OFF

Explication:

- Sélectionne le Part assigné à la PLG100-DX.
- Lorsqu'il est sur OFF, aucun Part ne lui est assigné. Les réglages de 1 à 16 correspondent aux Parts 1 à 16.

### BulkBlock

Réglages: 01-32, 33-64

Explication:

- Sélectionne la mémoire Custom, 1~32 ou 33~64, utilisée pour accueillir les données transmises par bloc de 32 sons envoyées à la PLG100-DX à partir d'un appareil MIDI externe ou d'un ordinateur.

### VelCurve (Velocity Curve)

Réglages: DX7, Normal, Soft1, Soft2, Easy, Wide, Hard

Explication:

- Détermine la courbe de toucher.
- La courbe de toucher exprime la relation entre le signal de toucher reçu et le volume lorsque le son est généré.
- DX7 détermine la courbe de toucher pour les DX7 et DX7II.
- Normal rend le toucher proportionnel à la force avec laquelle une touche est enfoncée. Il s'agit de la courbe de toucher en usage sur les synthétiseurs ordinaires.
- Soft1 correspond à une courbe de toucher qui rend tous les sons faciles à produire. Idéal pour ceux qui ont un toucher léger sur le clavier (enfants ou débutants).
- Soft2 correspond à une courbe de toucher qui rend tous les sons faciles à produire. Elle est plus proche de la courbe de toucher normale que Soft1.
- Easy correspond à une courbe de toucher qui facilite la production de touches relativement importantes. Comme le changement de toucher dans la zone centrale de la courbe est modéré, le toucher est stable.
- Wide est une courbe qui contrôle le toucher là où la pression sur les touches est légère et le libère là où la pression est plus forte. Cela donne l'impression d'un vaste plage dynamique.
- Hard est une courbe où le son est difficile à produire sur toute la gamme. Réservé aux claviéristes qui n'y vont pas de main morte.

 |   |   |   |    |          |   |    |   |    |          |   |   |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |   |    |          |   |    |   |    |         |   |   |   |    |         |   |   |   |   |    |         |   |   |   |   |    |          |   |    |   |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |   |   |    |          |   |    |   |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |   |   |    |          |   |    |   |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |   |   |    |          |   |    |   |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |   |   |    |          |   |    |   |   |    |           |   |   |   |   |    |           |   |    |   |   |    |           |   |   |   |   |    |           |   |    |   |   |    |           |   |   |   |   |    |           |   |    |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |   |   |    |          |   |   |   |   |    |          |   |   |   |   |    |          |   |   |   |   |    |          |   |   |   |   |    |          |   |   |   |   |    |         |   |   |   |   |    |         |   |   |   |   |    |          |   |    |   |   |    |         |   |   |   |   |    |         |   |   |   |   |    |          |   |   |   |   |    |        |    |         |   |    |         |   |   |         |   |   |         |   |   |         |   |    |         |   |    |          |   |    |         |   |    |         |   |    |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |         |   |    |         |   |    |         |   |    |         |   |   |         |   |   |         |   |    |         |   |    |         |   |   |         |   |    |         |   |   |         |   |    |         |   |   |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |   |    |         |   |    |         |   |    |         |   |    |         |   |    |         |   |   |          |   |    |          |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |         |   |    |          |   |    |          |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |          |   |    |          |   |    |          |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |   |    |          |   |    |   |    |         |   |   |   |    |         |   |   |   |   |    |         |   |   |   |   |    |          |   |    |   |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |   |   |    |          |   |    |   |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |   |   |    |          |   |    |   |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |   |   |    |          |   |    |   |   |    |           |   |   |   |   |    |           |   |    |   |   |    |           |   |   |   |   |    |           |   |    |   |   |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |   |   |    |          |   |   |   |   |    |          |   |   |   |   |    |          |   |   |   |   |    |          |   |   |   |   |    |          |   |   |   |   |    |         |   |   |   |   |    |         |   |   |   |   |    |          |   |    |   |   |    |         |   |   |   |   |    |         |   |   |   |   |    |          |   |   |   |   |    |        |    |         |   |    |         |   |   |         |   |   |         |   |   |         |   |    |         |   |    |          |   |    |         |   |    |         |   |    |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |         |   |    |         |   |    |         |   |    |         |   |   |         |   |   |         |   |    |         |   |    |         |   |   |         |   |    |         |   |   |         |   |    |         |   |   |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |   |    |         |   |    |         |   |    |         |   |    |         |   |    |         |   |   |          |   |    |          |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |         |   |    |          |   |    |          |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |          |   |    |          |   |    |          |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |          |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |   |    |          |   |    |   |    |         |   |   |   |    |         |   |   |   |   |    |         |   |   |   |   |    |          |   |    |   |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |   |   |    |          |   |    |   |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |   |   |    |          |   |    |   |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |   |   |    |          |   |    |   |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |   |   |    |          |   |    |   |   |    |           |   |   |   |   |    |           |   |    |   |   |    |           |   |   |   |   |    |           |   |    |   |   |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |   |   |    |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |   |   |    |          |   |   |   |   |    |          |   |   |   |   |    |          |   |   |   |   |    |          |   |   |   |   |    |          |   |   |   |   |    |         |   |   |   |   |    |         |   |   |   |   |    |          |   |    |   |   |    |         |   |   |   |   |    |         |   |   |   |   |    |          |   |   |   |   |    |        |    |         |   |    |         |   |   |         |   |   |         |   |   |         |   |    |         |   |    |          |   |    |         |   |    |         |   |    |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |         |   |    |         |   |    |         |   |    |         |   |   |         |   |   |         |   |    |         |   |    |         |   |   |         |   |    |         |   |   |         |   |    |         |   |   |         |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |   |    |         |   |    |         |   |    |         |   |    |         |   |    |         |   |   |          |   |    |          |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |         |   |    |          |   |    |          |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |   |    |          |   |    |          |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |   |    |          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |   |          |   |    |   |          |   |    |   |          |   |    |   |          |   |    |   |          |   |    |   |          |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    |   |           |   |    | ## Performance List

| No. | Name         | Type         | Notes                                                                                                                                                          |
|-----|--------------|--------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1   | EP Layer     | 1 FM + 1 AWM | FM electronic piano layer sound similar to DX1 layer.                                                                                                          |
| 2   | Doctor DX    | 1 FM + 1 AWM | FM Electronic piano with a bright, sharp edge.                                                                                                                 |
| 3   | Golden Wires | 1 FM + 1 AWM | Features the metallic ring of electronic piano oscillators. For use in performance.                                                                            |
| 4   | SuperConga   | 1 FM         | The percussion sound of a conga, rich in expressiveness.                                                                                                       |
| 5   | Tubular      | 1 FM + 1 AWM | FM tubular bells. Velocity change that can't be obtained with FM is added with AWM, giving a velocity cross fade.                                              |
| 6   | New Koto     | 1 FM         | Koto sound with an echo effect applied.                                                                                                                        |
| 7   | Cello Edge   | 1 FM + 1 AWM | Cello rich in expressiveness. The edge of the bow sound is expressed with FM, the natural cello sound with AWM.                                                |
| 8   | Plasticlav   | 1 FM + 1 AWM | A plastic clicking sound is added to a typical clavier.                                                                                                        |
| 9   | TX Bass      | 1 FM         | A heavy bass sound with good velocity response, like the TX81Z sound.                                                                                          |
| 10  | Bachsichord  | 1 FM + 1 AWM | Harpsichord nuanced with FM's crisp keyboard expression and AWM's realistic sound.                                                                             |
| 11  | That's FM    | 1 FM + 1 AWM | A bright, FM-like clavier string sound with lots of metallic overtones                                                                                         |
| 12  | 3D Rodes     | 1 FM + 1 AWM | A hard electronic piano with a lively click sound and phaser effect added.                                                                                     |
| 13  | Mr. Clav     | 1 FM + 1 AWM | Clavier featuring FM's crispness and attack and AWM's realistic sound.                                                                                         |
| 14  | Snooper Bass | 1 FM         | Bass with a distinct sound that's good for hiphop, rap, or dance music.                                                                                        |
| 15  | Digicomp     | 1 FM         | Crisp FM percussive sound with a discordance that appears with as velocity increases. Good for performance.                                                    |
| 16  | Glasswirl    | 1 FM         | Analog-like FM pad sound rich in expressive power.                                                                                                             |
| 17  | RealAcoustic | 1 FM + 1 AWM | Steel string acoustic guitar. The crisply played feeling comes from FM, while the natural tone generation comes from AWM.                                      |
| 18  | SparkleStabs | 1 FM         | Sparkling percussive pad sound with a slightly metallic feel. Good for music with a new age or pop feeling.                                                    |
| 19  | Zed Bass     | 1 FM         | TX81Z type bass featuring metallic string sound                                                                                                                |
| 20  | CE20 Bass    | 1 FM         | FM bass sound like Yamaha's CE20. Good for solo or ensemble use.                                                                                               |
| 21  | Harpist      | 1 FM         | Bright harp with a transparent feeling. More effective if played with glissando.                                                                               |
| 22  | Steel Cans   | 1 FM + 1 AWM | Realistic steel drum sound.                                                                                                                                    |
| 23  | Zambeezi     | 1 FM + 1 AWM | Ethnic sound, like a log drum.                                                                                                                                 |
| 24  | Perkethnic   | 1 FM + 1 AWM | Ethnic drum. Noise is added in relation to velocity.                                                                                                           |
| 25  | Cembalom     | 1 FM + 1 AWM | Bright, sparkling FM cembalon (dulcimer)with DK type EG.                                                                                                       |
| 26  | Smackabass   | 1 FM         | Heavy FM smack bass with distortion.                                                                                                                           |
| 27  | ClockStrikz1 | 1 FM + 1 AWM | "Big Ben" type bell sound, like TX802 sound.                                                                                                                   |
| 28  | DoubleGlock  | 1 FM + 1 AWM | Dual voice glockenspiel using FM and AWM.                                                                                                                      |
| 29  | Stage 73     | 1 FM + 1 AWM | Electric piano with a compressor applied. Undulates as velocity gets stronger.                                                                                 |
| 30  | HandBells    | 1 FM + 1 AWM | FM handbells with realistic AWM effects added.                                                                                                                 |
| 31  | Xylophone    | 1 FM + 1 AWM | Very natural xylophone.                                                                                                                                        |
| 32  | Marimboid    | 1 FM + 1 AWM | A realistic marimba                                                                                                                                            |
| 33  | Vivaldi      | 1 FM + 2 AWM | Violin created with FM and AWM that can be used for solo or ensemble. Highlights the crispness of FM and the realism of AWM.                                   |
| 34  | Industrial   | 1 FM + 1 AWM | Industrial bass with a good crisp string sound in the attack.                                                                                                  |
| 35  | 2 FD         | 1 FM + 1 AWM | FM sound that layers bell and electronic piano, like a DX7II FD.                                                                                               |
| 36  | Cmprsd Strat | 1 FM + 1 AWM | Lively electric guitar sound combining the crispness of FM with the realism of AWM.                                                                            |
| 37  | Uprighteous  | 1 FM + 1 AWM | Amplified upright bass with FM supplying the feeling of strings being hit.                                                                                     |
| 38  | Chackawacka  | 1 FM + 1 AWM | Percussion sound heard in Chinatown during the Chinese New Year. Discordant sounds add a metallic feeling and string attack as velocity increases.             |
| 39  | Woodknocker  | 1 FM + 1 AWM | FM sound with overtones that give a woody feeling, like a cross between a wood drum and bass strings.                                                          |
| 40  | Temple Gongs | 1 FM + 1 AWM | FM gong. If played lightly, it sounds like a gong hit lightly with a rubber mallet. Holding the key makes a metallic sound like brushing the back of the gong. |
| 41  | Kundoon      | 1 FM + 3 AWM | Split sound. The right side of the keyboard sounds like gongs/wind bells played with a bow, the left like a dulcimer.                                          |
| 42  | GS1-ness     | 1 FM + 1 AWM | Strong metallic comp pad sound based on Yamaha's GS1 with deep chorus applied.                                                                                 |

|     |               |              |                                                                                                      |
|-----|---------------|--------------|------------------------------------------------------------------------------------------------------|
| 43  | Ice Breath    | 1 FM + 1 AWM | You can hear the breath sounds in this flute that has something of a VL feeling to it.               |
| 44  | Bronze Lead   | 1 FM + 1 AWM | Monotone metallic lead/solo sound.                                                                   |
| 45  | Monster Pad   | 1 FM + 1 AWM | With a dramatic sound just like a movie soundtrack, this pad really catches the flavor of FM.        |
| 46  | Aluminum      | 1 FM + 1 AWM | Strong pad with chifff (organ pipe noise) added with metallic overtones.                             |
| 47  | Bite-a-Synth  | 1 FM + 1 AWM | Really crisp, metallic FM oscillator sound. Good for performance or pad use.                         |
| 48  | Tinezzz       | 1 FM + 2 AWM | DX piano layered with a nicely ringing pad and with chorus applied.                                  |
| 49  | Tam-Tam       | 1 FM + 1 AWM | Untuned gong sound. By striking multiple keys with a lot of spirit, you can get really good effects. |
| 50  | Clickorgan    | 1 FM + 1 AWM | An organ sound with heavy plastic click in the attack.                                               |
| 51  | FreshSection  | 1 FM + 3 AWM | Fresh sax section. Play it crisply.                                                                  |
| 52  | Ascension     | 1 FM + 2 AWM | Sounds like a magic spell being cast.                                                                |
| 53  | Better Days   | 1 FM + 2 AWM | Makes an eerie noise. Play one note at a time.                                                       |
| 54  | Touch me!!    | 1 FM + 1 AWM | That stereo feeling just shines (old electronic mandolin sound).                                     |
| 55  | Blue Mirror   | 1 FM + 3 AWM | Quivering bell sound.                                                                                |
| 56  | FlameSwaying  | 1 FM + 3 AWM | Swaying sound of the harp.                                                                           |
| 57  | Spring Bass   | 1 FM + 3 AWM | Synth bass with a hard attack.                                                                       |
| 58  | Vintage Game  | 1 FM + 3 AWM | The so-called electronic sound.                                                                      |
| 59  | From a Home   | 1 FM + 3 AWM | The old family organ has gone hi-fi.                                                                 |
| 60  | Danger Caves  | 1 FM + 3 AWM | Play it from below-as dark as can be.                                                                |
| 61  | Afternoon Jam | 1 FM + 3 AWM | Guitar and vibraphone played in unison.                                                              |
| 62  | HappyEnd      | 1 FM + 2 AWM | An old organ. Play it dramatically.                                                                  |
| 63  | Fantasy Songs | 1 FM + 3 AWM | A perfect voice for playing Disney songs.                                                            |
| 64  | Relax Square  | 1 FM + 3 AWM | Synth chorus voice.                                                                                  |
| 65  | Coriander     | 1 FM + 3 AWM | Well-matched voice for ethnic songs.                                                                 |
| 66  | Drive Bass    | 1 FM + 3 AWM | Synth bass with a special attack.                                                                    |
| 67  | LoFi Clavi    | 1 FM + 2 AWM | Voice like a 70's distorted clavier.                                                                 |
| 68  | ColdWater-DX  | 1 FM + 3 AWM | A voice with refreshing DX clarity.                                                                  |
| 69  | HiSpeedBrass  | 1 FM + 3 AWM | Live brass section with a stereo feeling.                                                            |
| 70  | Ambient Park  | 1 FM + 3 AWM | Soft Pad.                                                                                            |
| 71  | Picked CP     | 1 FM + 2 AWM | Electric piano that sounds like an electric grand played with a pick.                                |
| 72  | Sand Pad      | 1 FM + 2 AWM | Warm synth pad with layered DX strings and chorus.                                                   |
| 73  | DX-Brass1     | 1 FM + 2 AWM | Brass that emphasizes the hard attack of the trumpet.                                                |
| 74  | DX-Brass2     | 1 FM + 1 AWM | Brass with the unique tension of the DX7.                                                            |
| 75  | Plucked Wow   | 1 FM         | DX clavinet with auto-wow applied.                                                                   |
| 76  | Plucked EP    | 1 FM + 2 AWM | Electric piano that sounds like a harp.                                                              |
| 77  | Brass Pad     | 1 FM + 1 AWM | Analog synth style brass pad.                                                                        |
| 78  | Octave Decay  | 1 FM         | Hard decay sound.                                                                                    |
| 79  | Slap Bass     | 1 FM + 1 AWM | Slap bass as only the DX7 can do it.                                                                 |
| 80  | Ethnic Groove | 1 FM + 1 AWM | Ethnic synth drum.                                                                                   |
| 81  | Thai Noodles  | 1 FM + 1 AWM | A lead voice that makes you want to eat Thai noodles.                                                |
| 82  | ElectrcNylon  | 1 FM + 1 AWM | A nylon guitar played though a pick-up.                                                              |
| 83  | DX Martenot   | 1 FM         | Martenot style voice that's classic for suspense.                                                    |
| 84  | CP80M+DX Ep   | 1 FM + 1 AWM | Voice with layered CP80M and DX electric piano.                                                      |
| 85  | Viscous Bass  | 1 FM + 1 AWM | Gluey synth bass sound.                                                                              |
| 86  | Woody Plucked | 1 FM + 1 AWM | Plucked sound with a woody feel.                                                                     |
| 87  | Arco Strings  | 1 FM + 1 AWM | String section played with bows.                                                                     |
| 88  | Matrix        | 1 FM + 1 AWM | Thick synth brass pad.                                                                               |
| 89  | PanFlute      | 1 FM + 2 AWM | Pan flute                                                                                            |
| 90  | DigiMute      | 1 FM + 1 AWM | DX-like mute.                                                                                        |
| 91  | DigiSlap      | 1 FM + 1 AWM | Hard synth bass.                                                                                     |
| 92  | SuperDX       | 1 FM + 1 AWM | Hard slap bass style lead.                                                                           |
| 93  | Friction      | 1 FM + 2 AWM | Brass pad with a hard friction feel.                                                                 |
| 94  | Comped EP     | 1 FM + 2 AWM | Percussive electric piano.                                                                           |
| 95  | Clean Guitar  | 1 FM + 1 AWM | Electric guitar played with a guitar amp that has chorus.                                            |
| 96  | Mandolin      | 1 FM + 1 AWM | Mandolin that brings back memories of good old movies.                                               |
| 97  | Reed-Lead     | 1 FM + 1 AWM | Digital sax-style lead                                                                               |
| 98  | BigBang       | 1 FM + 2 AWM | SE-type pad that has an attack with a lot of violent modulation.                                     |
| 99  | DX-Bang!      | 1 FM + 2 AWM | SE-type pad that has an attack with a lot of violent modulation.                                     |
| 100 | OrinocoDecay  | 1 FM + 2 AWM | Sound for arpeggio with an attack like a marimba, and like a guitar used with orinoco flow.          |

## MIDI Data Format

### 1. Channel messages

#### 1.1 Note on/note off

These messages convey keyboard performance data.

Range of note numbers received = C-2...G8

Velocity range = 1...127 (Velocity is received only for note-on)

When the Multi Part parameter "Rcv NOTE MESSAGE" = OFF, that part will not receive these messages.

#### 1.2 Control changes

These messages convey control operation information for volume or pan etc. Their functions are differentiated by the control number (Ctrl#).

If the Multi Part parameter Rcv CONTROL CHANGE = OFF, that part will not receive control changes.

##### 1.2.1 Bank Select

This message selects the voice bank.

| Control# | Parameter       | Data Range |
|----------|-----------------|------------|
| 0        | Bank Select MSB | 0...127    |
| 32       | Bank Select LSB | 0...127    |

The Bank Select data will be processed only after a Program Change is received, and then voice bank will change at that time. If you wish to change the voice bank as well as the voice, you must transmit Bank Select and Program Change messages as a set, in the following order: Bank Select MSB, LSB, and Program Change.

##### 1.2.2 Modulation

This message is used primarily to control the depth of vibrato, but the depth of the following 5 types of effect can be controlled. The effect of this message can be changed by the following parameters.

- \* Multi Part Parameter
- 1. MW PITCH CONTROL
- 2. MW FILTER CONTROL
- 3. MW AMPLITUDE CONTROL
- 4. MW LFO PMOD DEPTH
- 5. MW LFO AMOD DEPTH

By default, an LFO Pitch Modulation (PMOD) effect will apply.

| Control# | Parameter  | Data Range |
|----------|------------|------------|
| 1        | Modulation | 0...127    |

If the Multi Part parameter Rcv MODULATION = OFF, that part will not receive Modulation.

##### 1.2.3 Portamento Time

This message controls the degree of Portamento (see 1.2.9).

| Control# | Parameter       | Data Range |
|----------|-----------------|------------|
| 5        | Portamento Time | 0...127    |

When Portamento is ON, this regulates the speed of the pitch change. A value of 0 is the shortest Portamento time, and 127 is the longest Portamento time.

##### 1.2.4 Data Entry

This message sets the value of the parameter which was specified by RPN (see 1.2.17) and NRPN (see 1.2.16).

| Control# | Parameter      | Data Range |
|----------|----------------|------------|
| 6        | Data Entry MSB | 0...127    |
| 38       | Data Entry LSB | 0...127    |

##### 1.2.5 Main Volume

This message controls the volume of each part. (It is used to adjust the volume balance between parts.)

| Control# | Parameter   | Data Range |
|----------|-------------|------------|
| 7        | Main Volume | 0...127    |

When the Multi Part parameter Rcv VOLUME = OFF, that part will not receive Main Volume. With a value of 0 there will be no sound, and a value of 127 will produce the maximum volume.

##### 1.2.6 Panpot

This message controls the panning (stereo location) of each part.

| Control# | Parameter | Data Range   |
|----------|-----------|--------------|
| 10       | Pan       | 0...64...127 |

When the Multi Part parameter Rcv PAN = OFF, that part will not receive Panpot. 0 is left, 64 is center, and 127 is right.

##### 1.2.7 Expression

This message controls expression for each part. It is used to create volume changes during a song.

| Control# | Parameter  | Data Range |
|----------|------------|------------|
| 11       | Expression | 0...127    |

If the Multi Part parameter Rcv EXPRESSION = OFF, that part will not receive Expression.

#### 1.2.8 Hold1

This message controls sustain pedal on/off.

| Control# | Parameter | Data Range                    |
|----------|-----------|-------------------------------|
| 64       | Hold1     | 0...63, 64...127<br>(OFF, ON) |

When this is ON, currently-sounding notes will continue to sound even if note-off messages are received. If the Multi Part parameter Rcv HOLD1 = OFF, that part will not receive Hold1.

#### 1.2.9 Portamento

This message controls Portamento pedal on/off.

| Control# | Parameter  | Data Range                    |
|----------|------------|-------------------------------|
| 65       | Portamento | 0...63, 64...127<br>(OFF, ON) |

When ON, Portamento produces a smooth glide connecting two notes of different pitch. The time over which the pitch changes is adjusted by Portamento Time (see 1.2.3). When the Multi Part Parameter MONO/POLY MODE = MONO, the tone will also change smoothly (legato) if Portamento = ON. If the Multi Part parameter Rcv PORTAMENTO = OFF, that part will not receive Portamento.

\* Rcv PORTAMENTO = OFF

#### 1.2.10 Sostenuto

This message controls sostenuto pedal on/off.

| Control# | Parameter | Data Range                    |
|----------|-----------|-------------------------------|
| 66       | Sostenuto | 0...63,64... 127<br>(OFF, ON) |

If sostenuto is turned on while a note is sounding, that note will be sustained until sostenuto is turned OFF.

If the Multi Part parameter Rcv SOSTENUTO = OFF, that part will not receive Sostenuto.

#### 1.2.11 Harmonic Content

This message adjusts the resonance of the filter that is specified for the sound.

| Control# | Parameter        | Data Range                      |
|----------|------------------|---------------------------------|
| 71       | Harmonic Content | 0...64...127<br>(-64...0...+63) |

Since this is a relative change parameter, it specifies an increase or decrease relative to 64. Higher values will produce a more distinctive sound.

For some sounds, the effective range may be less than the possible range of settings.

#### 1.2.12 Release Time

This message adjusts the EG release time that was specified by the sound data.

| Control# | Parameter    | Data Range                       |
|----------|--------------|----------------------------------|
| 72       | Release Time | 0...64... 127<br>(-64...0...+63) |

Since this is a relative change parameter, it specifies an increase or decrease relative to 64. Increasing this value will lengthen the release time that follows a note-off.

#### 1.2.13 Attack Time

This message adjusts the EG attack time that was specified by the sound data.

| Control# | Parameter   | Data Range                       |
|----------|-------------|----------------------------------|
| 73       | Attack Time | 0...64... 127<br>(-64...0...+63) |

Since this is a relative change parameter, it specifies an increase or decrease relative to 64. Increasing this value will make the attack more gradual, and decreasing this value will make the attack sharper.

#### 1.2.14 Brightness

This message adjusts the cutoff frequency of the low pass filter specified by the sound data.

| Control# | Parameter  | Data Range                      |
|----------|------------|---------------------------------|
| 74       | Brightness | 0...64...127<br>(-64...0...+63) |

Since this is a relative change parameter, it specifies an increase or decrease relative to 64. Lower values will produce a more mellow sound.

For some sounds, the effective range may be less than the possible range of settings.

#### 1.2.15 Data Increment/Decrement (for RPN)

This message is used to increment or decrement values for parameters specified by RPN (see 1.2.17), in steps of 1.

| Control# | Parameter     | Data Range |
|----------|---------------|------------|
| 96       | RPN Increment | -          |
| 97       | RPN Decrement | -          |

The data byte is ignored.

# Appendix

## 1.2.16 NRPN (Non-registered parameter number)

This is a message for setting the sound for things like vibrato, filter or EG. Use NRPN MSB and NRPN LSB to specify the parameter that you wish to modify, and then use Data Entry (see 1.2.4) to set the value for the specified parameter.

| Control# | Parameter | Data Range |
|----------|-----------|------------|
| 98       | NRPN LSB  | 0...127    |
| 99       | NRPN MSB  | 0...127    |

If the Multi Part parameter Rcv NRPN = OFF, that part will not receive NRPN.

The following NRPN messages can be received.

| NRPN<br>MSB LSB | Data Entry*1<br>MSB LSB | Parameter Name and Data Range                                             |
|-----------------|-------------------------|---------------------------------------------------------------------------|
| 01H 08H         | mm -*2                  | Vibrato rate<br>mm: 00H - 40H - 7FH (-64 ...0...+63)                      |
| 01H 09H         | mm -                    | Vibrato depth<br>mm: 00H - 40H - 7FH (-64 ...0...+63)                     |
| 01H 0AH         | mm - *3                 | Vibrato delay<br>mm: 00H - 40H - 7FH (-64 ...0...+63)                     |
| 01H 20H         | mm -                    | Low pass filter cutoff frequency<br>mm: 00H - 40H - 7FH (-64 ...0...+63)  |
| 01H 21H         | mm -                    | Low pass filter resonance<br>mm: 00H - 40H - 7FH (-64 ...0...+63)         |
| 01H 24H         | mm -                    | High pass filter cutoff frequency<br>mm: 00H - 40H - 7FH (-64 ...0...+63) |
| 01H 30H         | mm -                    | EQ bass gain<br>mm: 00H - 40H - 7FH (-64 ...0...+63)                      |
| 01H 31H         | mm -                    | EQ treble gain<br>mm: 00H - 40H - 7FH (-64 ...0...+63)                    |
| 01H 34H         | mm -                    | EQ bass frequency<br>mm: 04H - 28H (32 ... 2.0K [Hz])                     |
| 01H 35H         | mm -                    | EQ treble frequency<br>mm: 1CH - 3AH (500 ... 16.0K [Hz])                 |
| 01H 63H         | mm -                    | EG Attack Time<br>mm: 00H - 40H - 7FH (-64 ...0...+63)                    |
| 01H 64H         | mm -                    | EG Decay Time<br>mm: 00H - 40H - 7FH (-64 ...0...+63)                     |
| 01H 66H         | mm -                    | EG Release Time<br>mm: 00H - 40H - 7FH (-64 ...0...+63)                   |

\*1 See 1.2.4

\*2 “-” means that the set value will be ignored.

\*3 Adjusts the time after the note is played until vibrato begins to take effect. The effect will begin more quickly for lower values, and more slowly for higher values.

## 1.2.17 RPN (Registered parameter number)

This message is used to specify part parameters such as Pitch Bend Sensitivity or Tuning. Use RPN MSB and RPN LSB to specify the parameter that you wish to modify, and then use Data Entry (see 1.2.4) to set the value of the specified parameter.

| Control# | Parameter | Data Range |
|----------|-----------|------------|
| 100      | RPN LSB   | 0 ... 127  |
| 101      | RPN MSB   | 0 ... 127  |

If the Multi Part parameter Rcv RPN = OFF, that part will not receive this message.

The following RPN messages can be received.

| RPN<br>MSB LSB | Data Entry *1<br>MSB LSB | Parameter name and value range                                                                                                                                                                  |
|----------------|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 00 00H         | mm -*2                   | Pitch bend sensitivity<br>mm: 00-18H (0...+24 semitones)<br>Specify up to 2 octaves in semitone steps                                                                                           |
| 00 01H         | mm 11                    | Fine tuning<br>mm 11: 00H 00H -100 cents<br>: :<br>mm 11: 40H 00H 0 cents<br>: :<br>mm 11: 7FH 7FH +100 cents<br>Note: The next after mm 11:00H 7FH (= -87.5 cent)<br>is 01H 00H (-87.4) cents. |
| 00H 02H        | mm -                     | Coarse tuning<br>mm: 28H - 40H - 58H (-24...0...+24 semitones)                                                                                                                                  |
| 7FH 7FH        | - -                      | RPN Null<br>This empties settings from RPN and NRPN numbers.<br>Internal data is not affected.                                                                                                  |

\*1 Refer to 1.2.4

\*2 “-” means that the set value will be ignored.

## 1.2.18 Assignable controller

By assigning a control change number of 0...95 to a part, application of effects can be controlled. This device allows two control change numbers (AC1 and AC2) to be specified for each part.

The following parameters specify the effect of AC1 and AC2:

- \* Multi Part Parameter
- 1. AC1, AC2 PITCH CONTROL
- 2. AC1, AC2 FILTER CONTROL
- 3. AC1, AC2 AMPLITUDE CONTROL
- 4. AC1, AC2 LFO PMOD DEPTH
- 5. AC1, AC2 LFO AMOD DEPTH

The AC1 control change number is specified by the Multi Part parameter AC1 CONTROLLER NUMBER, and the AC2 control change number is specified by the Multi Part parameter AC2 CONTROLLER NUMBER.

## 1.3 Channel mode messages

These messages specify the basic operation of a part.

### 1.3.1 All Sound Off

This message silences all notes being played on the corresponding channel. However, channel messages such as Note-on and Hold-on will be maintained in their present state.

| Control# | Parameter     | Data Range |
|----------|---------------|------------|
| 120      | All Sound Off | 0          |

### 1.3.2 Reset All Controllers

This message changes the settings of the following controllers.

| Controller              | Value                                        |
|-------------------------|----------------------------------------------|
| Pitch bend change       | ±0 (Center)                                  |
| Channel pressure        | 0 (OFF)                                      |
| Polyphonic key pressure | 0 (OFF)                                      |
| Modulation              | 0 (OFF)                                      |
| Expression              | 127 (Max.)                                   |
| Hold                    | 0 (OFF)                                      |
| Portamento              | 0 (OFF)                                      |
| Sostenuto               | 0 (OFF)                                      |
| RPN                     | Number unset, internal data is not affected. |
| NRPN                    | Number unset, internal data is not affected. |

The following data is not changed

Parameter values specified for program change, bank select MSB/LSB, volume, pan, effect send levels 1, 3, 4, RPN and NRPN.

| Control# | Parameter             | Data Range |
|----------|-----------------------|------------|
| 121      | Reset All Controllers | 0          |

### 1.3.3 All Note Off

This message turns off all notes which are currently on for the corresponding part.

However, if Hold 1 or Sostenuto are on, notes will continue to sound until these are turned off.

| Control# | Parameter    | Data Range |
|----------|--------------|------------|
| 123      | All Note Off | 0          |

### 1.3.4 Omni Off

Works the same as when All Note Off is received.

| Control# | Parameter | Data Range |
|----------|-----------|------------|
| 124      | Omni Off  | 0          |

### 1.3.5 Omni On

Works the same as when All Note Off is received.

| Control# | Parameter | Data Range |
|----------|-----------|------------|
| 125      | Omni On   | 0          |

### 1.3.6 Mono

Works the same as when All Sound Off is received, and if the value (mono number) is in the range of 0...16, sets the corresponding channel to Mode4\* (m = 1).

| Control# | Parameter | Data Range |
|----------|-----------|------------|
| 126      | Mono      | 0 ... 16   |

\* Mode4 is a state in which only channel messages on the specified channel will be received, and notes will be played individually (monophonically).

### 1.3.7 Poly

Works the same as when All Sound Off is received, and sets the corresponding channel to Mode3\*.

| Control# | Parameter | Data Range |
|----------|-----------|------------|
| 127      | Poly      | 0          |

\*Mode3 is when channel messages will be received only on the specified channel, and notes will be sounded polyphonically.

## 1.4 Program change

This message is used to switch voices.

It changes the program number on the receiving channel. When the change is to include the voice bank, transmit the program change after sending the Bank Select message (see 1.2.1).

If the Multi Part parameter Rcv PROGRAM CHANGE = OFF, that part will not receive program changes.

## 1.5 Pitch bend

This message conveys information on pitch bend operations.

Basically, this message is for changing the pitch of a part, but the depth of the following five effects can be controlled.

The effect of this message can be modified by the following parameters.

\* Multi Part Parameter  
 1. BEND PITCH CONTROL  
 2. BEND FILTER CONTROL  
 3. BEND AMPLITUDE CONTROL  
 4. BEND LFO PMOD DEPTH  
 5. BEND LFO AMOD DEPTH

By default, the Pitch Control effect is applied.  
 If the Multi Part parameter Rcv PITCH BEND CHANGE = OFF, that part will not receive pitch bend messages.

## 1.6 Channel aftertouch

This message conveys the pressure after the key is played on the keyboard (for an entire MIDI channel). The pressure can be controlled for each part. This message will affect the notes currently playing.

The effect of this message can be modified by the following parameters.

\* Multi Part Parameter  
 1. CAT PITCH CONTROL  
 2. CAT FILTER CONTROL  
 3. CAT AMPLITUDE CONTROL  
 4. CAT LFO PMOD DEPTH  
 5. CAT LFO AMOD DEPTH

By default, there will be no effect.  
 If the Multi Part parameter Rcv CHANNEL AFTER TOUCH = OFF, that part will not receive Channel Aftertouch.

## 1.7 Polyphonic aftertouch

This message conveys the pressure after the key is played on the keyboard (for individual note numbers). The pressure can be controlled for each part. This message will affect the notes currently playing.

The effect of this message is determined by the following Multi Part parameters.

1. PAT PITCH CONTROL  
 2. PAT AMPLITUDE CONTROL  
 3. PAT LFO PMOD DEPTH  
 4. PAT LFO AMOD DEPTH

By default, there will be no effect.  
 If the Multi Part parameter Rcv POLY AFTER TOUCH = OFF, that part will not receive Polyphonic Aftertouch.

## 2. System exclusive messages

### 2.1 Parameter changes

This devices uses the following parameter changes.

[UNIVERSAL REALTIME MESSAGE]

1) Master Volume

[UNIVERSAL NON REALTIME MESSAGE]

1) General MIDI System On

[XG PARAMETER CHANGE]

1) XG System on  
 2) XG System parameter change  
 3) Multi Part parameter change

[PLG100-DX NATIVE PARAMETER CHANGE]

1) PLG100-DX System parameter change  
 2) PLG100-DX Multi Part parameter change

[DX PARAMETER CHANGE]

1) VCED parameter change  
 2) ACED parameter change

### 2.1.1 Universal realtime messages

#### 2.1.1.1 Master Volume

|            |     |                                    |
|------------|-----|------------------------------------|
| 11110000   | F0H | = Exclusive status                 |
| 01111111   | 7FH | = Universal Real Time              |
| 01111111   | 7FH | = ID of target device              |
| 00000100   | 04H | = Sub-ID #1=Device Control Message |
| 00000001   | 01H | = Sub-ID #2=Master Volume          |
| * 0sssssss | SSH | = Volume LSB                       |
| 0ttttttt   | TTH | = Volume MSB                       |
| 11110111   | F7H | = End of Exclusive                 |
| 11110000   | F0H | = Exclusive status                 |
| 01111111   | 7FH | = Universal Real Time              |
| 0xxxxnnn   | XNH | = Device Number, xxx = don't care  |
| 00000100   | 04H | = Sub-ID #1=Device Control Message |
| 00000001   | 01H | = Sub-ID #2=Master Volume          |
| 0sssssss   | SSH | = Volume LSB                       |
| 0ttttttt   | TTH | = Volume MSB                       |
| 11110111   | F7H | = End of Exclusive                 |

When received, the Volume MSB is reflected in the System Parameter MASTER VOLUME.

\* The binary expression 0sssssss is expressed in hexadecimal as SSH.  
 The same applies elsewhere.

### 2.1.2 Universal non-realtime messages

#### 2.1.2.1 General MIDI System On

|          |     |                                  |
|----------|-----|----------------------------------|
| 11110000 | F0H | = Exclusive status               |
| 01111110 | 7EH | = Universal Non-Real Time        |
| 01111111 | 7FH | = ID of target device            |
| 00000100 | 09H | = Sub-ID #1=General MIDI Message |
| 00000001 | 01H | = Sub-ID #2=General MIDI On      |
| 11110111 | F7H | = End of Exclusive               |
| or       |     |                                  |
| 11110000 | F0H | = Exclusive status               |
| 01111110 | 7EH | = Universal Non-Real Time        |
| 0xxxxnnn | XNH | = N:Device Number, X:don't care  |
| 00000100 | 09H | = Sub-ID #1=General MIDI Message |
| 00000001 | 01H | = Sub-ID #2=General MIDI On      |
| 11110111 | F7H | = End of Exclusive               |

When this message is received, the SOUND MODULE MODE is set to XG, and all data except for MIDI Master Tuning will be restored to the default value. However this message will not be received when SOUND MODULE MODE = C/M.

Since approximately 50ms is required to process this message, be sure to allow an appropriate interval before sending the next message.

#### 2.1.3 XG parameter change

This message sets XG-related parameters. Each message can set a single parameter.

The message format is as follows.

|          |     |                  |
|----------|-----|------------------|
| 11110000 | F0H | Exclusive status |
| 01000011 | 43H | YAMAHA ID        |
| 0001nnnn | 1NH | N:device Number  |
| 01001100 | 4CH | Model ID         |
| 0ggggggg | GGH | Address High     |
| 0mmmmmmm | MMH | Address Mid      |
| 01111111 | LLH | Address Low      |
| 0sssssss | SSH | Data             |
| :        | :   |                  |
| 11110111 | F7H | End of Exclusive |

For parameters whose Data Size is 2 or 4, the appropriate amount of data will be transmitted as indicated by Size.

#### 2.1.3.1 XG System On

|          |     |                  |
|----------|-----|------------------|
| 11110000 | F0H | Exclusive status |
| 01000011 | 43H | YAMAHA ID        |
| 0001nnnn | 1NH | N:device Number  |
| 01001100 | 4CH | Model ID         |
| 00000000 | 00H | Address High     |
| 00000000 | 00H | Address Mid      |
| 01111110 | 7EH | Address Low      |
| 00000000 | 00H | Data             |
| 11110111 | F7H | End of Exclusive |

When ON is received, the SOUND MODULE MODE changes to XG.

Since approximately 50ms is required to process this message, be sure to allow an appropriate interval before sending the next message.

#### 2.1.3.2 XG System Parameter Change

This message sets the XG SYSTEM block (see Tables <1-1> and <1-2>).

#### 2.1.3.3 Multi Part Parameter Change

This message sets the Multi Part block (see Tables <1-1> and <1-3>).

#### 2.1.4 PLG100-DX native parameter change (1)

This message sets parameters unique to the PLG100-DX. Each message sets a single parameter. The message format is as shown below.

|          |     |                  |
|----------|-----|------------------|
| 11110000 | F0H | Exclusive status |
| 01000011 | 43H | YAMAHA ID        |
| 0001nnnn | 1NH | N:Device Number  |
| 01100010 | 62H | Model ID         |
| 0ggggggg | GGH | Address High     |
| 0mmmmmmm | MMH | Address Mid      |
| 01111111 | LLH | Address Low      |
| 0vvvvvvv | VVH | Data             |
| 11110111 | F7H | End of Exclusive |

For parameters whose Data Size is 2 or 4, the appropriate amount of data will be transmitted as indicated by Size.

#### 2.1.4.1 PLG100-DX System Parameter Change

This message sets the PLG100-DX SYSTEM block (see Tables <2-1> and <2-2>).

# Appendix

## 2.1.4.2 PLG100-DX Part Parameter Change

This message sets the PLG100-DX MULTI PART block (see Tables <2-1> and <2-3>).

### 2.1.5 DX Parameter Change

|          |     |                     |
|----------|-----|---------------------|
| 11110000 | F0H | Exclusive status    |
| 01000011 | 43H | YAMAHA ID           |
| 0001nnnn | 1NH | N:Device Number     |
| 0ggggghh | GGH | Parameter Group No. |
| 0ppppppp | PPH | Parameter No.       |
| 0vvvvvvv | VVH | Data                |
| 11110111 | F7H | End of Exclusive    |

### 2.1.5.1 VCED parameter change

This message sets the VCED block (see Tables <3-1> and <3-2>).

### 2.1.5.2 ACED parameter change

This message sets the ACED block (see Tables <3-1> and <3-3>).

## 2.2 Bulk dump

This device uses only the following bulk dump messages.

### [XG BULK DUMP]

- 1) XG System bulk dump
- 2) Multi Part bulk dump

### [PLG100-DX NATIVE BULK DUMP]

- 1) System bulk dump
- 2) Part bulk dump

### [DX BULK DUMP]

- 1) VCED
- 2) ACED
- 3) VMEM
- 4) AMEM

### 2.2.1 XG bulk dump

This message sets XG-related parameters. Unlike parameter change messages, a single message can modify multiple parameters. The message format is as follows.

|           |     |                  |
|-----------|-----|------------------|
| 11110000  | F0H | Exclusive status |
| 01000011  | 43H | YAMAHA ID        |
| 0000nnnn  | 0NH | N:Device Number  |
| 01001100  | 4CH | Model ID         |
| 0sssssss  | SSH | ByteCountMSB     |
| 0ttttttt  | TTH | ByteCountLSB     |
| 0ggggggg  | GGH | Address High     |
| 0mmmmmm   | MMH | Address Mid      |
| 01111111  | LLH | Address Low      |
| 0vvvvvvv  | VVH | Data             |
| :         | :   |                  |
| 0kkkkkkkk | KKH | Check-sum        |
| 11110111  | F7H | End of Exclusive |

Address and Byte Count are given in tables <1-n>. Byte Count is indicated by the total size of the Data in tables <1-n>.

Bulk dump is received when the beginning of the block is specified in "Address".

'Block' indicates the unit of the data string that is indicated in tables 1-n as 'Total size'.

Check sum is the value that produces a lower 7 bits of 0 when the Start Address, Byte Count, Data, and the Check sum itself are added.

### 2.2.1.1 XG System bulk dump

This message sets the XG SYSTEM block (see Tables <1-1>, <1-2>).

### 2.2.1.2 Multi Part bulk dump

This message sets the MULTIPART block (see Tables <1-1>, <1-3>).

### 2.2.2 PLG100-DX Native Bulk Dump

This message sets the special parameters for PLG100-DX. Unlike Parameter change, one message can modify multiple parameters.

|           |     |                  |
|-----------|-----|------------------|
| 11110000  | F0H | Exclusive status |
| 01000011  | 43H | YAMAHA ID        |
| 0000nnnn  | 0NH | N:Device Number  |
| 01100010  | 62H | Model ID         |
| 0sssssss  | SSH | ByteCountMSB     |
| 0ttttttt  | TTH | ByteCountLSB     |
| 0ggggggg  | GGH | Address High     |
| 0mmmmmm   | MMH | Address Mid      |
| 01111111  | LLH | Address Low      |
| 0vvvvvvv  | VVH | Data             |
| :         | :   |                  |
| 0kkkkkkkk | KKH | Check-sum        |
| 11110111  | F7H | End of Exclusive |

The details are the same as for 2.2.1 XG Bulk Dump. However, see Tables <2-n> for the Address, Byte Count, and block.

### 2.2.2.1 PLG100-DX System Bulk Dump

This message sets the PLG100-DX SYSTEM block (see Tables <2-1>, <2-2>).

### 2.2.2.2 PLG100-DX Multi Part bulk dump

This message sets the PLG100-DX MULTI PART block (see Tables <2-1>, <2-3>).

### 2.2.3 DX bulk dump

|          |     |                  |
|----------|-----|------------------|
| 11110000 | F0H | Exclusive status |
| 01000011 | 43H | YAMAHA ID        |
| 0000nnnn | 0NH | N:Device Number  |
| 0ttttttt | TTH | Format No.       |
| 0sssssss | SSH | ByteCountMSB     |
| 0ttttttt | TTH | ByteCountLSB     |
| 0vvvvvvv | VVH | Data             |
| :        | :   |                  |

|           |     |                  |
|-----------|-----|------------------|
| 0kkkkkkkk | KKH | Check-sum        |
| 11110111  | F7H | End of Exclusive |

Address and Byte Count are given in tables <3-n>. Byte Count is indicated by the total size of the Data in tables <3-n>.

Bulk dump is received when the beginning of the block is specified in "Address".

'Block' indicates the unit of the data string that is indicated in tables 3-n as 'Total size'.

Check sum is the value that produces a lower 7 bits of 0 when the DATA, and the Check-sum itself are added.

### 2.2.3.1 VCED Bulk Dump

This message sets the VCED block (see Tables <4-1> and <3-2>).

### 2.2.3.2 ACED Bulk Dump

This message sets the ACED block (see Tables <4-1> and <3-3>).

### 2.2.3.3 VMEM Bulk Dump

This message sets the VMEM block (see Tables <4-1> and <4-2>).

### 2.2.3.4 AMEM Bulk Dump

This message sets the AMEM block (see Tables <4-1> and <4-3>).

## 3. Realtime Messages

### 3.1 Active Sensing

- a) Send
- b) Do not send.
- c) Receive

After FE is received one time, if the MIDI signal does not come within 400 msec, PLG100-DX will act the same as when ALL SOUND OFF, ALL NOTE OFF, and RESET ALL CONTROLLERS are received, and return to the condition where FE has not been received once.

<1-1>

Parameter Base Address

MODEL ID = 4C

| Parameter                  | Address |     |     | Description           |
|----------------------------|---------|-----|-----|-----------------------|
|                            | (H)     | (M) | (L) |                       |

TOTAL SIZE 460 (23h X 20h = 460h)

# When Your PLG100-DX Seems to Have a Problem

Please check the items below when your PLG100-DX isn't generating sounds or when it isn't functioning normally. Also, when the current status of the settings for your PLG100-DX isn't clear, it's a good idea to turn the power off, then on again (returning the settings to their defaults), and try entering your settings again.

## The PLG100-DX doesn't produce sounds

- Are the MU128 and the playback equipment (such as speakers or headphones) correctly connected?
- Is the PLG100-DX board properly mounted in the XG plug-in connector? Take a look at the pages in your XG tone generator manual that explain how to install the board.
- Are the volume and expression for the part selected for the PLG100-DX voice raised to the proper level?
- Is the carrier output level set at -64? (→P. 22)
- This may happen when voices are placed in the custom bank and edited with the DX Simulator. Check the settings.

## In Multipart Edit, the “PLUGIN” menu doesn’t appear.

- Is the PLG100-DX correctly installed?

## The pitch is not right

- Has note shift or transpose information been set?
- This may happen when voices are placed in the custom bank and edited with the DX simulator. Check the settings.

## Notes won’t stop playing

- Because EG Release Level (L4) is set for the voices below, they won’t stop playing, even when a Note Off is received (The same applies to the custom bank).

| MSB | LSB | Program Ch. | Voice Name |
|-----|-----|-------------|------------|
| 83  | 0   | 52          | DX Grw12   |
| 83  | 0   | 82          | DX-Train   |
| 83  | 0   | 91          | MobyDick   |
| 83  | 0   | 123         | ManEater   |

 • If you switch voices, the sound will stop.

## The vibrato is different for each voice

- This happens because an appropriate LFO Mode is set for each voice. When a chord is played with some voices, vibrato is applied individually to match the dynamics for the way each key was played. For other voices, the same vibrato that was applied for the dynamics of the first key played will be applied to all notes.

## Notes sound different for each Note ON

- Because an appropriate oscillator sync is set for each voice, phase shift occurs between the operators. Depending on the voice, the sound may be slightly different each time a key is played.

Falls sich die PLG100-DX nicht erwartungsgemäß verhält, kontrollieren Sie am besten kurz folgende Dinge. Oftmals reicht es bereits, wenn Sie das Wirtinstrument kurz aus- und danach wieder einschalten. Dabei werden die Einstellungen der PLG100-DX nämlich initialisiert. Nehmen Sie anschließend noch einmal die benötigten Änderungen vor.

## Die PLG100-DX bleibt stumm

- Haben Sie den MU128 sowie die Audioanlage (Verstärker, Aktivboxen, Kopfhörer) ordnungsgemäß miteinander verbunden?
- Haben Sie die PLG100-DX ordnungsgemäß eingebaut? Siehe die Einbauhinweise in der Bedienungsanleitung des XG-Wirtinstrumentes.
- Haben Sie die Lautstärke und den Expression-Parameter der gewählten PLG100-DX-Voice auf einen geeigneten Wert gestellt?
- Haben Sie Carrier Output Level auf “-64” gestellt? (→S. 22)
- Diese Störung tritt manchmal auf, wenn Sie Voices in der Custom-Bank ablegen und dann mit DX Simulator editieren. Kontrollieren Sie die Einstellungen.

## Das “PLUGIN”-Menü des Multi Part Edit-Betriebes erscheint nicht

- Haben Sie die PLG100-DX ordnungsgemäß eingebaut?

## Falsche Tonhöhe

- Haben Sie den Part mit Note Shift transponiert bzw. die Transposition aktiviert?
- Diese Störung tritt manchmal auf, wenn Sie Voices in der Custom-Bank ablegen und dann mit DX Simulator editieren. Kontrollieren Sie die Einstellungen.

## Die Noten hören nicht mehr auf (“Notenhänger”)

- Wenn Sie die EG Release Level-Einstellung (L4) der nachstehend aufgeführten Voices ändern, werden die betreffenden Noten auch nach Empfang eines Note-aus-Befehls nicht ausgeschaltet. (Dies gilt auch für die Custom-Bank.)

| MSB | LSB | Programmwechsel | Voice    |
|-----|-----|-----------------|----------|
| 83  | 0   | 52              | DX Grw12 |
| 83  | 0   | 82              | DX-Train |
| 83  | 0   | 91              | MobyDick |
| 83  | 0   | 123             | ManEater |

-  • Rufen Sie eine andere Voice auf, um die Notenhänger auszuschalten.

## Das Vibrato ist nicht für alle Voices gleich

- Das liegt daran, daß für jede Voice eine geeignete LFO Mode-Einstellung programmiert wurde. Wenn Sie mit bestimmten Voices Akkorde spielen, ist das Vibrato bisweilen von Note zu Note verschieden, weil es sich nach den Anschlagwerten richtet. Bei anderen Voices wird das Vibrato der ersten Note auch für alle danach gespielten Noten verwendet.

## Der Klangcharakter der gespielten Noten ändert sich fortwährend

- Das liegt an der Einstellung des Oscillator Sync-Parameters. Bei bestimmten Voices führt dies zu Phasenverschiebungen, so daß fast jede Note etwas anders klingt.

# Dépannage

Veuillez lire ce qui suit lorsque votre PLG100-DX ne produit aucun son ou ne fonctionne pas comme prévu. Lorsque vous n'êtes plus sûr de l'état actuel des réglages pour votre PLG100-DX, coupez l'alimentation puis rétablissez-la (vous ramenez ainsi tous les réglages à leurs valeurs initiales) et entrez alors les réglages voulus.

## La PLG100-DX ne produit aucun son.

- Le MU128 et le matériel de reproduction (enceintes, casque, etc.) sont-ils correctement branchés?
- La carte PLG100-DX est-elle correctement enfoncee dans le connecteur plug-in XG? Voyez la section du manuel de votre générateur de sons qui explique comment installer la carte.
- Le volume et l'expression du Part sélectionné pour le son de la PLG100-DX ont-ils un niveau adéquat?
- Le niveau du porteur est-il réglé sur -64? (→P. 22)
- Cela peut se produire lorsque les sons sont placés dans une banque Custom et édités avec le DX Simulator. Vérifiez les réglages.

## En mode Multipart Edit, le menu “PLUGIN” n’apparaît pas.

- La PLG100-DX est-elle correctement installée?

## La hauteur n'est pas bonne.

- Avez-vous des informations Note Shift ou Transpose?
- Cela peut se produire lorsque les sons sont placés dans une banque Custom et édités avec le DX Simulator. Vérifiez les réglages.

## Les notes ne s'arrêtent pas.

- Si EG Release Level (L4) est sélectionné pour les sons ci-dessous, ils ne s'arrêtent pas même lors de la réception d'un message Note Off (note coupée). Il en va de même pour la banque Custom.

| MSB | LSB | Ch. de prog. | Nom du son |
|-----|-----|--------------|------------|
| 83  | 0   | 52           | DX Grw12   |
| 83  | 0   | 82           | DX-Train   |
| 83  | 0   | 91           | MobyDick   |
| 83  | 0   | 123          | ManEater   |

-  • *Si vous choisissez un autre son, le jeu s'arrête.*

## Le vibrato est différent pour chaque son.

- Cela se produit car un mode LFO adéquat est choisi pour chaque son. Lorsque vous jouez un accord avec certains sons, le vibrato est appliqué individuellement pour répondre à la dynamique avec laquelle chaque touche est enfoncee. Pour d'autres sons, le vibrato appliqué en fonction de la dynamique avec laquelle la première touche a été enfoncee s'applique à toutes les notes.

## Les notes sont différentes pour chaque Note ON.

- Un réglage oscillator sync adéquat déphase les opérateurs. Selon le son, celui-ci peut varier légèrement chaque fois que vous enfoncez une touche.
